Consciousness As The Primary Field Alfred John Dalrymple:

Consciousness As the Primary Field Alfred John Dalrymple,2013-06-19 Perhaps everything that is manifest was preceded by the possibility that it could exist So we need to consider that Our Something is larger than this universe Author Alfred Dalrymple believes that the entirety of it is a field the Consciousness Field And it has a particle whose action allows manifest parts to self maintain Man has now added the Higgs Field to known forces such as electromagnetism strong and weak nuclear forces and gravity Dalrymple believes these forces and all else were enabled by the Consciousness Field and to other areas of thought because consciousness is immediate so is its particle s action If we accept this and eliminate the barriers assumed in our relationship to the speed of light we can also have a clearer understanding of cause and effect the separable nature of things free will and fate Accordance Alfred John Dalrymple,2014-06-25 Perhaps the primary field of Our Something is Consciousness In action which resembles particle to particle encounter Consciousness enables each unit of itself forward Consciousness has an immediacy we don t understand But by considering it we can have clearer thoughts about cause and effect the separable nature of things freewill and fate Time and distance is also carpet like and connected yet separable Before entering Robot City we ought to study Consciousness before the human I slips away **Awareness as the Ground of Being** Alfred John Dalrymple,2009-12-17 In this universe one thing follows another We relate to the speed of light and say nothing can travel faster Today we know that two entangled bits of matter though separated by vast distance immediately co respond to stimulus applied to one Some say there was no message sent The co response is due to the oneness of reality I believe messages can be sent over a vast distance immediately This retains the separable nature of reality and assures that man has self emanated choice free will Man is not a machine programmed to act according to what his genes dictate Time and distance are relative also and primarily to the immediacy of consciousness Accordance Alfred John Dalrymple,2014-01-10 This book is a study of consciousness and states that consciousness is the primary field and moves forward resembling a particle like encounter The immediacy of consciousness allows a clearer understanding of a separable nature of reality and verifies man s possession of freewill Original Bradley and Daroff's Neurology in Clinical Practice - E-Book Joseph Jankovic,John C. Hagelin,1987 Is Consciousness the Unified Field? John Hagelin,2017-10-02 Progress in theoretical physics during the past decade has led to a progressively more unified understanding of the laws of nature culminating in the recent discovery of completely unified field theories The parallel discovery of a unified field of consciousness raises fundamental questions concerning the relationship between the two Following a general introduction to unified quantum field theories we consider the proposal due to Maharishi Mahesh Yogi that the unified field of modern theoretical physics and the field of pure consciousness are identical We show that the proposed identity between consciousness and the unified field is consistent with all known physical principles but requires an expanded physical framework for the understanding of consciousness Such a framework may indeed be required to account for experimentally observed field effects of consciousness and phenomenological aspects of higher states of consciousness
