

Reducing energy and water consumption in the kitchen means choosing your new appliances with care and using your existing ones more efficiently.

SHOP SMART.

Buy ENERGY STAR®.

Every appliance has two price tags: what you pay to purchase it, and what you pay for the energy and water it uses. Appliances with the ENERGY STAR label meet strict energy-efficiency criteria established by the U.S. Environmental Protection Agency. Compared to standard models, ENERGY STAR-qualified refrigerators use 9% less energy and ENERGY STAR-qualified dishwashers use 12% less energy and can save about 3,870 gallons of water over their average 10-year lifetime. Make it a practice to look for the label.

Consumer Guide to Kitchen Appliances

Every appliance has two price tags: what you pay to purchase it, and what you pay for the energy and water it uses. Selecting energy-efficient kitchen appliances can save you money in utility costs. Look for appliances with the ENERGY STAR label, which meet strict energy-efficiency criteria.

Refrigerators and Freezers

Saving energy in the kitchen starts with the refrigerator since it is typically one of the largest energy users of all major home appliances. Here are some tips for how to start saving energy.

Replace a refrigerator or freezer that's more than 15 years old as soon as possible. Although a new refrigerator or freezer is an added expense, keep in mind that an old refrigerator can be costing you up to 33% more to run than the newest ENERGY STAR-qualified units. See Further Reading at the end of this fact sheet to learn more.

Consider buying a refrigerator with a top-mounted freezer. Top-mounted freezer models use less energy than some bottom-mounted or side-by-side models. Purchase an appropriately sized unit. Generally, the larger the unit, the more energy it consumes. The most energy-efficient full-size refrigerators with freezers are typically 16 to 20 cubic feet. If you purchase a stand-alone freezer, consider a chest freezer because it is often more energy-efficient than an upright one.

LOOK FOR THE LABELS
