

How to write a song

1. Brain dump-

Get a piece of paper and write down words that relate to the theme you are going for

2. Start forming these words into lines/ small sentences that also relate to your mood and theme

3.Keep writing lines and form chorus's and verses

4. Once you have your lyrics you need to download an app that has sounds and chords that you can turn into a backing track, then use this app to make a backing track.(this is the hardest part in my opinion)

5.(optional) if you have any instruments that you play you can then create chords that fit in with the lyrics

And... there you have it your own song
