all the information necessary for passing the required exam **Aircraft Dispatcher** United States. Federal Aviation Agency, 1961 *Aircraft Dispatcher Oral Exam Guide* David C. Ison, 2019-06-28 An Aircraft Dispatcher ADX is a licensed airman certificated by the Federal Aviation Administration FAA typically employed by airlines or companies operating large transport category aircraft who has joint responsibility with the captain for the safety and operational control of flights Dispatchers legally authorize flight departures and have authority to delay or cancel flights if unsafe conditions exist They disseminate flight information to the company and are the source of information provided to the traveling public The FAA Practical Exam for Aircraft Dispatcher is equivalent to the Airline Transport Pilot ATP oral exam that an airline captain must successfully complete This Aircraft Dispatcher Oral Exam Guide prepares you for the exam with an explanation of the certification process knowledge requirements in a question and answer format and reference materials for further study It covers the aircraft dispatcher Practical Test Standard subject areas such as route planning regulations training and currency requirements certification responsibilities and authority aviation weather manuals and documents as well as practical applications of all topics In addition special emphasis is placed on common areas of focus for the exam situational questions and a generic guide to the proper systems and procedures you can apply to the specific aircraft used in your individual operations Publisher marketing Aircraft Dispatcher Patrick S. Flannery, 2014-07-20 Unlike other books which only provide information in a question and answer format this book goes beyond the basic preparation which is necessary for passing the required exams Aircraft Dispatchers must know as much as the Pilot in Command and must execute an approved flight plans route and altitude selection fuel load all in compliance with FAA regulations Most Study Guides describe aeronautical knowledge in a lawyer like style which is hard to comprehend and not necessarily providing enough information Due to the massive study material necessary most individuals with or without aviation experience who choose this profession having a hard time passing the FAA written oral and practical exams due to lack of information The average student even those with aviation background will definitely need to study the content of this book in order to complete the Dispatch class and pass the exams The instructors will not always cover the required materials in detail Moreover many instructors are unable to simply explain the study material and tend to complicate relevant information unnecessarily The mandate to pass successfully the final exams and ultimately Oral and Practical exams require you to know intimately the material in this book
