Amazon every single day The vast majority will never sell more than a handful of copies This is devastating for hard working authors who care about their craft and are doing all of the things they re supposed to do if they want to make it as a successful author But it s confusing out there with too many things to learn and not enough time to learn them Worse so much of the available advice comes from people who are in the business of selling advice They re either parroting what others have said are making guesses based on assumptions or anecdotal evidence or are using their personal yet minimal experience with a successful book or perhaps even a few to articulate loose strategies that often have an absurdly short shelf life This book is different Write Publish Repeat was written by successful authors who have been in the indie game since the very beginning In the last ten years we ve gone from zero books to a few hundred with copies sold in the millions film and television projects in the works and hands on work with hundreds of writers like you We ve also made more mistakes than we can count But we made them so you don t have to This book explains how to create stories your readers will love and will want to return to again and again It details expert methods for enhancing creativity building worlds characters and plots understanding your market right down to your ideal reader using the best tools possible to capture your draft and explains proven best practices for editing It discusses covers titles formatting pricing and publishing to multiple platforms plus a bit on getting your books into print and why that might not be a good idea But most importantly Write Publish Repeat details the psychology driven marketing plan that Sean and Johnny built to shape their stories into products that readers couldn t help but be drawn into thus almost automatically generating sales and explores ways that smart business minded writers can do the same to future proof their careers What Indie Authors and Thought Leaders Are Saying Two of the best in the biz A gem for aspiring authors Hugh Howey For my money this is the best book on self publishing out there David Gaughran It s tough to find more honest and straight forward marketing advice than what you ll get from these indie authors Jane Friedman former publisher of Writer s Digest **Your Self Publishing Guide** First Choice Books, *2015 Guide to Self-Publishing, Revised Edition* Robert Lee Brewer, 2014-10-07 The 2015 Guide to Self Publishing is the essential resource for writers who are taking their publishing futures into their own hands whether it s referred to as self publishing or indie publishing In addition to hundreds of listings for freelance editors designers self publishing companies and more the Guide to Self Publishing offers articles on how to create standout covers hire freelance designers break in to the gift market protect your work promote your work and more You also gain access to Lists of conferences organizations and book fairs and festivals A pay rate chart to help negotiate fair terms with any freelancers you might use Interviews with successful indie authors including Hugh Howey Bob Mayer Delilah Marvelle and more Includes access to a one hour webinar How to Format E books With Microsoft Word indie author Jason Matthews helps writers master e book formatting This webinar covers each section of your book s needs from the title and table of contents to inserting images and hyperlinks In just over an hour you ll be able to professionally format your e book and give readers something they ll enjoy **Self-Publishing Simplified** Kristen
