Developing Backbone.js Applications : Building Better JavaScript Applications Addy Osmani,2013 *Developing a Backbone.js Edge* Casey Foster,Aidan Feldman,David Tonge,Phil Freo,Tim Branyen,2013 Backbone is a JavaScript library designed to give structure to your web applications It gives you a robust yet flexible framework to build your client side JavaScript application Backbone doesn t force you into a particular coding style or paradigm There is no magic happening below the surface the source code is clear readable and well commented Backbone is also lightweight in the sense that it doesn t require a ton of buy in to use It can be easily integrated into an existing page and you can choose to only use certain components of the library Views without

Models or Collections for example While there are many frameworks that seem to be faster to get started with Backbone's lack of surprises clear documentation speed and flexibility make it a good fit for all types of apps This book incorporates best practices and the techniques from the combined authors experience of developing many Backbone applications Some of the resources on the web advocate inefficient or inelegant solutions and there are few that cover the whole library In this book we aim to provide a complete guide to Backbone and equip you to start using the library straight away While writing this book the authors developed an example app called Hubbub to illustrate the various features of the library Hubbub repo on Github <https://github.com/backstopmedia/hubbub> Don't worry it's not another Todo App Rather it's a GitHub issue organizer The app is more complex than most example apps and uses a real API Github's You'll have a chance to build the application as you go through the book

Backbone.js Essentials Jeremy Walker, 2015-05-29 If you are a developer with baseline JavaScript proficiency and are familiar with the jQuery library then this book is ideal for you Whether you've tried building complex web applications before and been frustrated by the challenge of doing so without the proper tools or whether you've only built simple websites and are now looking to create full featured web applications this book has everything you need to get ahead of the curve
