The World of Self Publishing

When most people think of publishing a book or CD they think in terms of big publishing houses and multi million dollar advances the likes of which have made J K Rowling and Stephen King famous Fiction writers dream of a multi book deal musicians fantasize about being discovered and signed by a big record label and software developers pound the pavement trying to get Microsoft or Apple to even glance their way Meanwhile information marketers and non fiction writers are quietly working away publishing books and getting paid No hype no huge advances no book launch parties and no 17 city tours just a quiet little business that earns long term consistent money

Welcome to the world of self publishing This is a world inhabited by public speakers indie bands and specialists in every field from psychology to zoology And now it's available to Internet marketers for a fraction of the cost of those old time self publishing models thanks to the power of the Internet and the vast marketing empire of Amazon Years ago before technological advances made it possible to print a single book self publishing required that you spend thousands of dollars having your book professionally typeset buying a minimum run of several hundred or more copies and shipping a truckload of your book to your home where they would most likely end up cluttering your garage for years to come Digital products didn't exist and whether you wanted printed books flyers CDs or video tapes remember those you had to sink a lot of money into creating your product If you didn't have a great marketing plan you were sunk Today advances in technology make it possible to print a single book press a single CD or DVD or even produce high quality information products in electronic formats designed to be read on a computer or eBook reader That means there's no huge upfront investment and no excuse for you the savvy business person you are not to be taking advantage of this fantastic opportunity to get your content out there in front of a whole new market

The Power of Amazon

Online business owners are used to being able to reach an Internet savvy audience Their customers know what blogs are and they read them They aren't afraid to buy an eBook or download
