Learning Area: Arts II

EAST ASIAN ARTS

Quarter: II

DEFINING THE LEARNING OUTCOME

General Level Standard

Tell your students that at the end of Grade 8, they are expected to demonstrate understanding of salient features of Asian music and the arts, through appreciation, analysis, and performance for self-development, the celebration of Filipino cultural identity and diversity, and the expansion of one's world vision.

Content Standard:

Tell them at the end of the Second Quarter, they are expected to:

- demonstrate understanding of art elements and processes by synthesizing and applying prior knowledge and skills.
- demonstrate understanding of the salient features of the arts of East Asia by comparing the art elements and processes among culturally diverse East Asian countries.

Performance Standard:

The learners are expected to:

- create an artwork showing the characteristic elements of the arts of China, Japan and Korea.
- put up a mini-East Asian art exhibit using their own artworks.

Learning Competencies:

Tell your students know that at the end of this particular learning module, they are expected to:

1. analyze the art elements (color, line, shape, etc.) and principles (balance, proportion, emphasis, harmony, etc.) in the production of art and crafts.
2. identify the characteristics of arts and crafts found in East Asia
3. reflect on and derive the mood, idea, or message emanating from selected artwork.
4. determine the effectiveness of artwork by evaluating its utilization and combination of art elements and principles.
5. evaluate the effectiveness of mood, idea, or message as depicted by the visual image in the artwork.
6. trace the external (foreign) and internal (indigenous) influences that are reflected in an artwork or in the making of a craft or artifact.

DepEd Grade 8 Teaching Guide:

Aesthetic Teaching Pedagogies Reynaldo B. Inocian, 2018-10-09 This book presents an assortment of teaching and assessment strategies appropriate for 21st century learners based on the author's 25 years of teaching experience in private and state school institutions in the Philippines. It highlights the outcomes-based assessment of learning the curriculum basics for arts-based teaching learning activities based on the integrated arts for an effective instructional process and examples in the teaching of critical thinking, communication, collaboration, and creativity known as the Four Cs. While the monograph focuses on the author's local context, a plethora of citations provides clear connections that address learner diversity in recent global education contexts. The text is a useful guide for students who want to pursue a degree in teaching as well as novice and expert teachers, university professors, and advocates for teaching and learning. *Research on Reasoning with Data and Statistical Thinking: International Perspectives* Gail F. Burrill, Leandro de Oliveria Souza, Enriqueta

Reston, 2023-07-21 This book is derived from selected papers from the Fourteenth International Congress on Mathematical Education Topic Study Group 12 Teaching and Learning Statistics. It describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as Brazil, Chile, Columbia, Denmark, Germany, the Netherlands, Spain, Sweden, Thailand, Turkey, the United Kingdom, and the United States. The book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries. Because it contains specific examples of the research, for example, on the ways children learn the choice and implementation of tasks or the role of informal inference, the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers.

Online interactive resources for asynchronous modality in teaching grade 12 General Biology John Kenneth Taneo, 2022-06-21 Master's Thesis from the year 2021 in the subject Didactics Biology grade 12 language English abstract This research assessed the status of online interactive resources for asynchronous modality in teaching grade 12 General Biology 1 at the University of Cebu METC Campus Cebu City during School Year 2020-2021 as the basis for an enhanced learning module. This study utilized a quasi-experimental method of research employing the use of a non-equivalent control group pretest-posttest design. Two sections of Grade 12 STEM with a total of 47 students participated as research respondents in both the experimental and the control groups. The students answered a 40-item multiple choice questionnaire as a research instrument. The control group was treated with only pure text modules and PowerPoint presentation. In contrast, students from the experimental group utilized online interactive resources containing some hyperlinked lectures, video lectures, interactive games, animations, and some simulated demonstrations that were adopted and utilized for Grade 12 STEM learners in General Biology 1.
