**Cultivating Excellence** Darryl Cross, William Cross, 2017-05-16 Why and how do world class leaders and great performers consistently beat their competition They realize they cannot go it alone They use teams and coaches to amplify their results Many performers who have already surmounted exceptional tests and challenges and have succeeded in business sports the military or the arts well beyond their peers think performance is only up to the individual Many become frustrated when hours of hard work years of experience and expensive educations don t lead them to the top of their domain They are already among the best but they want to be the best The elite realize there is only so much they can do on their own to achieve that status They understand they need coaches colleagues and competitors to provide the collaboration and competition that serves as a constant push to keep forward momentum going toward attaining that next level In Cultivating Excellence Darryl Cross uses thirty years of experience to show top performers that the key to continued enhancement of performance and success is an exceptional coach and team They guide the elite performers to see situations and challenges in new ways art to perfect their craft to the nth degree science and to commit to deliberate practice that eliminates performance gaps grit and puts the summit within reach *IT Consultant Diploma - City of London College of Economics - 12 months - 100% online / self-paced* City of London College of Economics, Overview This course deals with everything you need to know to become a successful IT Consultant Content Business Process Management Human Resource Management IT Manager s Handbook Principles of Marketing The Leadership Information Systems and Information Technology IT Project Management Duration 12 months Assessment The assessment will take place on the basis of one assignment at the end of the course Tell us when you feel ready to take the exam and we ll send you the assignment questions Study material The study material will be provided in separate files by email download link [Computerworld](#) ,2001-07-23 For more than 40 years
