Blantyre Teachers Training College:

Malawi Integrated Inservice Teacher Education Programme Joachim Friedrich Pfaffe, 1997 **The Church of Central Africa Presbyterian 1924-2024** Kenneth Ross, Mwawi Chilongozi, 2024-02-29 I strongly recommend this book to anyone interested in issues of church unity justice liberation biblical transformation dignity hope joy resilience peace prayer and reconciliation The best Malawian scholars have drawn from their academic expertise and personal experience to give the reader a thick picture of the journey of unity among the Synods of the Church of Central Africa Presbyterian in Malawi Zambia and Zimbabwe This publication is a must have for all who have the unity of the CCAP at heart Prof Isabel Apawo Phiri Former Deputy General Secretary World Council of Churches and Vice Chancellor University of Blantyre Synod The Power of Oral History Narratives Toni Fuss Kirkwood-Tucker, Frans H. Doppen, 2023-06-01 The significance of this book is its uniqueness First the book contains a collection of fourteen chapters that capture the personal professional and historical experiences of international global scholars and artists to which they were subjected in their native country and after they immigrated to the United States What makes this book project highly unusual in comparison to other publications is that these international global scholars and artists experienced historical events of trauma and joy in their native country and in their newly adopted country of the United States that lie deeply buried in their sub consciousness that these memories are unforgettable and still painful for them that these memories are a constant companion in their daily lives and that the experienced historical events of trauma and joy have shaped their professional and personal lives to this very day There exists a paucity in the global education literature of this far reaching topic and thus it has the potential to enhance and diversify the global education literature Second the significance of this book lies in the pedagogical power of the oral history narrative tradition and its impact on students at the secondary and tertiary levels in education When one's lived experiences of trauma or joy occur during a critical time in history they rarely yield unforgotten memories and deeply held private knowledge that do not come to light without a storyteller When first hand accounts are shared publicly they can bring powerful insights into past historic events to the very presence Thus the pedagogical strength of this book contributes to knowledge creation in the classroom as oral histories move students from abstract textbook descriptions to concrete and compelling lived stories associated with historical happenings This pedagogy leads students to become more critical of historical events of the past and develops in them a deeper understanding of the past Consequently oral history narratives enable teachers and teacher educators to enrich the abstract text of textbooks with the authentic voice of the individual A third significance of this book lies embedded in the rich historical perspective displayed by storytellers of non native international global scholars and artists from around the world who portray their lived through first hand experiences such as child labor communism hate hunger fascism fear intolerance discrimination prejudice poverty war protest and death Finally a major purpose of this book is to expose young learners from around the world to empowering non native

international role models in global education and the arts from nations in Africa Asia the Caribbean Eurasia Europe the Middle East and South America who build bridges not walls between peoples and nations

Contradictions in Post-war Education Policy Formulation and Application in Colonial Malawi 1945-1961 I. C. Lamba, 2010 The post World War II colonial reconstruction programmes for economic recovery and general political and social development in Malawi then known as Nyasaland necessitated increased education But the sincerity of metropolitan development plans for the colonies could only be adequately appraised through the degree of demonstrated commitment in the implementation of the announced plans This study seeks to examine chronologically the development and application of colonial education policies during the period 1945 to 1961 in Malawi The parties involved included the British Colonial Office the Nyasaland Protectorate Government and the Christian missionaries on the one hand and the European settlers Asian Coloured and African communities on the other as the target groups of the policies Devising educational policies of equitable benefit to all the racial and social groupings in Malawi posed enormous problems to the colonial administration This study examining the dynamics and course of policy contends that given the prevailing economic and political conditions non European education especially that of Africans experienced retardation in favour of European education Sometimes apparent government ineptitude combined with calculated needs for the Europeans produced under development for African education in Malawi and the country's economy In the end African education operated against the odds of missionary and government apathy This book discusses the impact on education generally of the Nyasaland Post War Development Programme the Colonial Office Commissions of 1947 1951 and 1961 and the local Committees set up to inquire into the retardation of African education in its various categories including female and Muslim in response to both local and international pressure Although considered a priority African education developed slowly contrary to the declared goal of Post War colonial policy of self determination with its potential demands for trained local manpower The argument demonstrates the tenacity of the Federal Government of Rhodesia and Nyasaland in playing down African education as a political strategy from 1953 to 1961 at the same time as it accorded a better deal to Asian and Coloured education
