Haralson, 2014-01-21 With contributions from over 100 scholars the Encyclopedia of American Poetry The Nineteenth Century provides essays on the careers works and backgrounds of more than 100 nineteenth century poets It also provides entries on specialized categories of twentieth century verse such as hymns folk ballads spirituals Civil War songs and Native American poetry Besides presenting essential factual information each entry amounts to an in depth critical essay and includes a bibliography that directs readers to other works by and about a particular poet

Voices in Translation Gunilla M. Anderman, 2007 In choosing to render dialect and vernacular speech into Scots Bill Findlay to whose memory this volume is dedicated made a pioneering contribution in safeguarding the authenticity of voices in translation The scene of the book is set by an overview of approaches to rendering foreign voices in English translation including those of the people to whom Findlay introduced us in his Scots dialect versions of European plays Martin Bowman his frequent co translator follows with a discussion of their co translation of playwright Jeanne Mance Delisle Different ways of bridging the cultural divide in the translation between English and a number of plays written in a number of European languages are then illustrated including the custom of creating English versions an approach rejected by contributions that argue in favour of minimal intervention on the part of the translator But transferring the social and cultural milieu that the speakers of other languages inhabit may also cause problems in translation as discussed by some translators of fiction In addition attention is drawn to the translators own attitude and the influence of the time in which they live In conclusion stronger forces in the form of political events are highlighted that may also adversely or positively have a bearing on the translation process

Sarahapāda, Klaus-Dieter Mathes, Péter-Dániel Szántó, 2024-04-09 Saraha's spontaneous songs or dohas contain the special instructions of a guru whose qualities of realization can then directly enter the heart of devoted disciples These songs represent the rare perfection of the Buddhist art of expressing the inexpressible and they can trigger a mind to mind transmission that some take to have the power of directly pointing out the true nature of mind Saraha's dohas are quoted fairly often in Indic materials which points to the fact that he was indeed an influential authority The dohas are the most distinctive literary expression of a class of tantric Buddhist masters called siddhas hailed by tradition as beings of exceptional

spiritual realization Essentially these are gnomic verses composed not just in the doha meter proper using a kind of literary Middle Indic called Apabhramsa they also purportedly convey a high degree of mystical insight and were transmitted in collections The text already a tricky term of Saraha's Spontaneous Songs has not yet been available in full nor has it been stabilized to any degree of satisfaction The discovery of two hitherto overlooked manuscripts has helped to fill in the gaps In fact the present volume is the first in over six decades to bring to light new original material **The Book Collector** ,2005
