Choosing a Dissertation Topic: Common Difficulties

INITIAL CONSIDERATIONS:

- The topic should be relevant to your programme of study
- It should be related to one or more of the areas of study within your programme
- It should be restricted in scope to allow you to treat the topic in-depth – a broad approach rarely succeeds
- You must consider the availability of adequate sources of materials – literature and access to any primary sources you may need
- You must realistically assess the time any topic or question may demand
- It does not have to be an original topic or question
- It should be of interest to you
