Chinery Hesse Committee Report:

Public Sector Management and Economic Governance in Ghana Joseph R.A. Ayee, Lloyd G.A. Amoah, Seidu M. Alidu, 2024-06-04 This book is one of two volumes that examines the successes and failures of the Ghanaian Fourth Republic from a political public administration and public policy viewpoint Published to coincide with the thirtieth anniversary of the founding of the Fourth Republic these volumes bring together leading scholars to consider the political achievements and failures that have taken place in the country since 1993 and what these tell us about the state of politics and democracy in twenty first century Ghana and beyond This volume focuses on public sector management and economic governance It assesses themes such as policy elites policing bureaucrats and public servants the economy decentralization rural development and foreign policy The volume also places Ghana in a global context demonstrating how lessons learnt from the country can be applied elsewhere and what is unique about the Ghanaian experience It will appeal to all those interested in public management public administration governance economics and African politics

Issues in Ghana's Electoral Politics Ninsin, Kwame A., 2017-05-05 Ghana attained independence in 1957 From 1992 when a new constitution came into force and established a new democratic framework for governing the country elections have been organized every four years to choose the governing elites The essays in this volume are about those elections because elections give meaning to the role of citizens in democratic governance The chapters depart from the study of formal structures by which the electorate choose their representatives They evaluate the institutional forms that representation take in the Ghanaian context and study elections outside the specific institutional forms that according to democratic theory are necessary for arriving at the nature of the relationships that are formed between the voters and their representatives and the nature and quality of their contribution to the democratic process
