While elementary school teachers are certainly willing to teach students to closely read both literary and informational text, many are wondering what exactly this involves. Is there a process to follow? How is close reading different from guided reading or other common literacy practices? How do you prepare students to have their ability to analyze complex texts measured by Common Core assessments? Informed by the authors' extensive field experience and enriched by dozens of real-life scenarios and downloadable tools and templates, this book explores text complexity and how to determine if a particular text is a right fit for your learning purposes and your students. The process and purpose of close reading in the elementary grades, with an emphasis on its role in developing the 21st-century thinking, speaking, and writing skills essential for academic communication and required by the Common Core. How to plan, teach, and manage close reading sessions across the academic disciplines, including the kinds of questions to ask and the kinds of support to provide.
