Math Practice Standards

MP.2 Reason abstractly and quantitatively.	Create models and interpret the results.
MP.4 Model with mathematics.	Create mathematical models of contextual situations while attending to limitations on those models.
MP.6 Attend to precision.	Students pay careful attention to quantities and scale as they create graphs of functional relationships.

Essential Questions

- How can you represent and describe functions?
- Can functions describe real-world situations?

Vocabulary

Arithmetic sequence	Function	Range
Common difference	Function notation	Recursive formula
Continuous graph	Input	Relation
Dependent variable	Independent variable	Sequence
Discrete graph	Linear function	Term of a sequence
Domain	Nonlinear function	Relation
Explicit formula	Output	Vertical line test

Reflection

Does anything need to be cut out, added, or rearranged?	What fixes or changes need to be made?	Any ideas or activities for next year?

Common Core Standards Algebra 1 Pacing Guide:

Teaching to the Math Common Core State Standards F. D. Rivera, 2015-06-17 This is a methods book for preservice middle level majors and beginning middle school teachers It takes a very practical approach to learning to teach middle school mathematics in an emerging Age of the Common Core State Standards The Common Core State Standards in Mathematics CCSSM is not meant to be the official mathematics curriculum it was purposefully developed primarily to provide clear learning expectations of mathematics content that are appropriate at every grade level and to help prepare all students to be ready for college and the workplace A quick glance at the Table of Contents in this book indicates a serious engagement with the recommended mathematics underlying the Grade 5 through Grade 8 and traditional pathway Algebra I portions of the CCSSM first with issues in content practice assessment learning teaching and classroom management pursued next and in that order In this book we explore what it means to teach to the CCSSM within an alignment mindset involving content practice learning teaching and assessment The Common Core state content standards which pertain to mathematical knowledge skills and applications have been carefully crafted so that they are teachable learnable coherent fewer clearer and higher The practice standards which refer to institutionally valued mathematical actions processes and habits have been conceptualized in ways that will hopefully encourage all middle school students to engage with the content standards more deeply than merely acquiring mathematical knowledge by rote and imitation Thus in the CCSSM proficiency in content alone is not sufficient and so does practice without content which is limited Content and practice are both equally important and thus must come together in teaching learning and assessment in order to support authentic mathematical understanding This blended multisourced text is a getting smart book It prepares preservice middle level majors and beginning middle school teachers to work within the realities of accountable pedagogy and to develop a proactive disposition that is capable of supporting all middle school students in order for them to experience growth in mathematical understanding that is necessary for high school and beyond including future careers [Common Core Mathematics in a PLC](#)

Improving Student Learning One Teacher at a Time Jane E. Pollock, Laura J. Tolone, 2020-12-16 In this second edition of *Improving Student Learning One Teacher at a Time* Jane E. Pollock and Laura J. Tolone combine updated research and real world stories to demonstrate how it takes only one teacher to make a difference in student performance. Their approach expands the classic three part curriculum instruction assessment framework by adding one key ingredient: feedback. This Big Four approach offers an easy to follow process that helps teachers build better curriculum documents with Curriculum standards that are clear and well paced and describe what students will learn. Instruction based in research from daily lessons to whole units of study. Assessment that maximizes feedback and requires critical and creative thinking. Feedback that tracks and reports individual student progress by standards. Pollock and Tolone demonstrate how consistent timely feedback from multiple sources can help students monitor their own understanding and help teachers align assignments, quizzes and tests more explicitly to the standards. The Big Four shifts the focus away from the basics of what makes a good teacher toward what makes good learning happen for every student every day.
