opportunities for documentation improvement are identified For the medical record to be accurate and timely a physician query process should be in place Ongoing chart reviews and provider education reinforces the essential points of good documentation and helps to bridge the gap between what the provider needs clinically documented in the medical record from one visit to the next and the coding guidelines that are required to support the codes being submitted   **Medicare and Medicaid Guide** ,1969   **Wisconsin AIDS/HIV Update** ,2003   **Journal of AHIMA** ,2008   **Basic Pathology** Vinay Kumar,Ramzi S.
