

The background of the cover features a complex, three-dimensional molecular structure. It consists of numerous blue spheres, representing atoms, connected by dark blue rods, representing chemical bonds. The structure is intricate, with various branching and ring-like formations, giving it a sense of depth and complexity. The overall color scheme is dominated by shades of blue and white, with the molecular structure appearing to glow against a lighter, hazy background.

Actively engage students to become expert problem solvers and critical thinkers Nivaldo Tro s Chemistry A Molecular Approach presents chemistry visually through multi level images macroscopic molecular and symbolic representations to help students see the connections between the world they see around them the atoms and molecules that compose the world and the formulas they write down on paper Interactive digital versions of select worked examples instruct students how to break down problems using Tro s unique Sort Strategize Solve and Check technique and then complete a step in the example To build conceptual understanding Dr Tro employs an active learning approach through interactive media that requires students to pause during videos to ensure they understand before continuing The 5th Edition pairs digital pedagogical innovation with insights from learning design and educational research to create an active integrated and easy to use framework The new edition introduces a fully integrated book and media package that streamlines course set up actively engages students in becoming expert problem solvers and makes it possible for professors to teach the general chemistry course easily and effectively Also available with Mastering Chemistry By combining trusted author content with digital tools and a flexible platform Mastering personalizes the learning experience and improves results for each student The fully integrated and complete media package allows instructors to engage students before they come to class hold them accountable for learning during class and then confirm that learning after class Note You are purchasing a standalone product Mastering Chemistry does not come packaged with this content Students if interested in purchasing this title with Mastering Chemistry ask your instructor for the correct package ISBN and Course ID Instructors contact your Pearson representative for more information If you would like to purchase both the physical text and Mastering Chemistry search for 0134988809 9780134988801 Chemistry A Molecular Approach Plus Mastering Chemistry with Pearson eText Access Card Package Package consists of 0134874374 9780134874371 Chemistry A Molecular Approach 013498854X 9780134988542 Mastering Chemistry with Pearson eText ValuePack Access Card for Chemistry A Molecular Approach      **Manual of chemistry. A guide to lectures and laboratory work for beginners in chemistry. A text-book specially adapted for students of medicine, pharmacy, and dentistry** William Simon,1901      Laboratory Manual for Principles of General Chemistry J. A. Beran,Mark Lassiter,2022-08-16 Laboratory Manual for Principles of General Chemistry 11th Edition covers two semesters of a general chemistry laboratory program The material focuses on the lab experiences that reinforce the concepts that not all experimental conclusions are the same and depend on identifying an appropriate experimental procedure selecting the proper apparatus employing the proper techniques systematically analyzing and interpreting the data and minimizing inherent variables As a result of good data a scientific and analytical conclusion is made which may or may not be right but is certainly consistent with the data Experiments write textbooks textbooks don t write experiments A student s scientific literacy grows when experiences and observations associated with the scientific method are encountered

Further experimentation provides additional cause effect observations leading to an even better understanding of the experiment The 11th edition s experiments are informative and challenging while offering a solid foundation for technique safety and experimental procedure The reporting and analysis of the data and the pre and post lab questions focus on the intuitiveness of the experiment The experiments may accompany any general chemistry textbook and are compiled at the beginning of each curricular unit An Additional Notes column is included in each experiment s Report Sheet to provide a space for recording observations and data during the experiment Continued emphasis on handling data is supported by the Data Analysis section
