# Electric Field Hockey

**Purpose**

To use a series of simulated game-like challenges to gain a sense of the vector nature of the electric field and the consequence of the inverse square law that governs electrostatic force.

**Apparatus**

computer                      PhET simulation, "Electric Field Hockey" (available at <http://phet.colorado.edu>)

**Discussion**

In the space around a charged object is an *aura* generally described as an electric field. The electric field is a vector quantity, so the fields surrounding multiple charges add vectorially. If they have the same direction, the fields add (Figure 1.a), and if they have opposite directions, they subtract and may even cancel each other (Figure 1.b). And if the directions are at angles to each other, their effects combine and act at a new angle (Figure 1.c).

Figure 1.a. Same direction—fields add

Figure 1.b. Opposite direction—fields cancel

Figure 1.c. Different directions—fields add to a different direction

**Software**

In "Electric Field Hockey," a player guides a charged puck into the goal (bracket). The player must strategically place positive and negative charges on the "rink" so that when the puck is released, it will be propelled by electric forces into the goal. Clicking the on-screen "Start" button sets the puck free. The charges placed on the rink are fixed in place and will not move.

**Procedure**

**Step 1:** Turn on the computer and allow it to complete its start-up cycle.

**Step 2:** Locate and start the PhET "Electric Field Hockey" simulation. Ask your instructor for assistance if you have difficulty.

**Step 3:** From the selections available near the bottom of the simulation window,

- leave "Puck is positive" selected.
- activate the "Trace." Leave the other checkboxes unchecked.
- set the mass slider control to 100. (Doing so makes it easier to follow the action on the screen.)
- leave the simulation in "Practice" mode for now.
- Complete the practice exercises that follow.

Continue until your lab time runs out or you win the prized and highly coveted "Coulomb Cup" (completion of Level 3).

**Optional (if using the activity as a time-limited competition):** When you score a prescribed goal, leave the trace on the screen and call the instructor over for a verification/stamp. **After** the group's papers have been stamped, click the on-screen "Clear" button and move to the next exercise.
