Lannon, 2004 The book takes a situational approach emphasizing issues of audience purpose and task In addition it is the first Technical Communication text which acknowledges that most technical communication today is electronic whether it be Web sites CD ROM help files or e mail reports today s technical communicators work more in the new media than in the old ones The Concise Guide offers a seamless connection between the new and old worlds of technical communication Offering a critical look at communication technologies in relation to technical communication this text is designed for a broad range of undergraduate classes Includes concise coverage and examples of how to create and design successful technical print and electronic documents including proposals instructions specifications documentation procedures reports and memos Also includes cutting edge coverage of such issues as ethics copyright plagiarism usability page design and visual communication This book is for any professional who wants a concise guide to becoming a better communicator in the technical professions

Writing and Speaking in the Technology Professions David F. Beer, 2003-07-04 An updated edition of the classic guide to technical communication Consider that 20 to 50 percent of a technology professional s time is spent communicating with others Whether writing a memo preparing a set of procedures or making an oral presentation effective communication is vital to your professional success This anthology delivers concrete advice from the foremost experts on how to communicate more effectively in the workplace The revised and expanded second edition of this popular book completely updates the original providing authoritative guidance on communicating via modern technology in the contemporary work environment Two new sections on global communication and the Internet address communicating effectively in the context of increased e mail and web usage As in the original David Beer s Second Edition discusses a variety of approaches such as Writing technical documents that are clear and effective

Giving oral presentations more confidently Using graphics and other visual aids judiciously Holding productive meetings
 Becoming an effective listener The new edition also includes updated articles on working with others to get results and on giving directions that work Each article is aimed specifically at the needs of engineers and others in the technology professions and is written by a practicing engineer or a technical communicator Technical engineers IEEE society members and technical writing teachers will find this updated edition of David Beer's classic *Writing and Speaking in the Technology Professions* an invaluable guide to successful communication

Axelrod & Cooper's Concise Guide to Writing Rise B. Axelrod, Charles R. Cooper, 2011-10-21 Adapted from the best selling *St Martin's Guide to Writing* Axelrod and Cooper's *Concise Guide to Writing* provides streamlined versions of the chapters covering six of the most commonly assigned genres in the first year writing course remembering events writing profiles explaining concepts arguing a position proposing a solution and justifying an evaluation The careful integration of well chosen readings with guided writing instruction in these chapters is complemented by coverage of strategies for reading writing and research in brief but complete chapters at the end of the book Read the preface

Professional Writing Sky Marsen, 2019-11-06 Now in its fourth edition this is a comprehensive yet concise introduction to professional writing for different media which synthesises methods and ideas developed in journalism public relations management and marketing Based on research in the field it equips students with the ability to convey their ideas in a wealth of print and digital formats in a variety of professional contexts internationally It begins by examining the different aspects of the writing process before showing students how to adjust their style tone and approach for different documents including short memos feature articles press releases and reports This new edition will continue to be an essential companion for undergraduates on professional writing and business communication modules It will also be a valuable source of guidance for new professionals and entrepreneurs needing to get to grips with writing formal written documents New to this Edition Fully revised throughout with coverage of a wider variety of journalistic writing New content on mission and vision statements annual reports and newsletters alongside an overview of how organisations use social media and respond to crises Includes more analysed examples of business documents

Learning to Communicate in Science and Engineering Mya Poe, Neal Lerner, Jennifer Craig, 2010-02-05 Case studies and pedagogical strategies to help science and engineering students improve their writing and speaking skills while developing professional identities To many science and engineering students the task of writing may seem irrelevant to their future professional careers At MIT however students discover that writing about their technical work is important not only in solving real world problems but also in developing their professional identities MIT puts into practice the belief that engineers who don't write well end up working for engineers who do write well requiring all students to take communications intensive classes in which they learn from MIT faculty and writing instructors how to express their ideas in writing and in presentations Students are challenged not only to think like professional scientists and engineers but also to communicate like them This book offers in depth case studies and

pedagogical strategies from a range of science and engineering communication intensive classes at MIT It traces the progress of seventeen students from diverse backgrounds in seven classes that span five departments Undergraduates in biology attempt to turn scientific findings into a research article graduate students learn to define their research for scientific grant writing undergraduates in biomedical engineering learn to use data as evidence and students in aeronautic and astronautic engineering learn to communicate collaboratively Each case study is introduced by a description of its theoretical and curricular context and an outline of the objectives for the students activities The studies describe the on the ground realities of working with faculty staff and students to achieve communication and course goals offering lessons that can be easily applied to a wide variety of settings and institutions

Technical Communication for Readers and Writers Brenda R. Sims, 2002-09-24 Sims Technical Communication for Readers and Writers Second Edition guides students in planning writing and designing effective documents to meet the needs of users and readers Thoroughly revised expanded and redesigned in full color this edition gives students the tools they need to create appropriate technical documents for a multitude of writing situations and audiences The text takes a process approach rather than the model based approach of older tech writing texts

Writing for Professional Development Giulia Ortoleva, Mireille Bétrancourt, Stephen Billett, 2015-10-20 In their edited volume Writing for Professional Development Giulia Ortoleva Mireille B trancourt and Stephen Billett provide a range of contributions in which empirical research instructional models and educational practice are used to explore and illuminate how the task and process of writing can be used as tools for professional development Throughout the volume two main perspectives are considered learning to write professionally and writing to learn the profession both for initial occupational preparation and ongoing development within them The contributions consider a range of fields of professional practice across sectors of education starting from the premises that the role of writing as evolved in all occupational domains becoming a key activity in most workplaces Contributors are Cecile M Badenhorst Elena Boldrini Esther Breuer In s Cardoso Alberto Cattaneo Peter Czigler Jessica Dehler Pauline Glover Terri Grant Jean Luc Gurtner Jacqueline Hesson Ashgar Iran Nejad Rhonda Joy Ann Kelly Merja Kurunsaari Xumei Li Laetitia Mauroux Heather McLeod Elisa Motta Astrid Neumann Julian Newman Sigrid Newman Sharon Penney Lu sa Alvares Pereira Sarah Pickett Iris Susana Pires Pereira Anna Perr ard Vit Arja Piirainen Elisa Redondi Sabine Vanhulle Ray Smith Kirk P H Sullivan Linda Sweet Pa vi Tynj l Dorothy Vaandering Rebecca Woodard and Gabrielle Young
