We are
learning to
find half

The image shows a hands-on learning station for fractions, specifically focusing on finding half. The station is set up on a table covered with a white tablecloth featuring a pattern of red apples and strawberries. In the center, a black tray holds various colored LEGO bricks (red, blue, green, pink, yellow) arranged in a grid. To the left of the tray is a small black bowl filled with yellow beads. To the right is another similar bowl. Below the tray, a blue LEGO brick is placed on a light blue card. The card displays a simple addition equation: $2 + 2 = 4$, where the numbers are represented by yellow beads. To the right of the equation is a blue LEGO brick with four holes, representing the sum. Further to the right, another light blue card shows two identical groups of three yellow beads each, separated by a plus sign, with a blue LEGO brick with six holes to the right, representing the total. In the background, a yellow card with the numbers 1 through 10 is visible, and a pink card with the text 'We are learning to find half' is placed near the LEGO tray. The overall setup is designed to help children understand the concept of halves using tangible objects.
