Dra Teachers Observation Guide:

Assessing and Addressing Literacy Needs Barbara Combs, 2011-04-07 *Assessing and Addressing Literacy Needs Cases and Instructional Strategies* is designed to help preservice and inservice teachers understand the problems that children encounter when learning to read and to provide key instructional strategies related to best practices in literacy instruction. The text promotes reflection and analysis that will provoke thoughtful responses and discussions to help teachers use assessments to identify problems and employ appropriate strategies to help their students become better readers. Provided by publisher *The Literacy Coach's Companion, PreK-3* Maryann Mraz, Robert Algozzine, Brian Kissel, 2009. Literacy coaches have become an increasingly important part of school literacy teams. As a result, there is a greater need for understanding the issues related to this growing position. This book addresses those issues and highlights the expanding role of literacy coaches in early and elementary literacy programs. Chapters feature user-friendly guidelines and evidence-based strategies for sustained professional development protocols for classroom observations and teacher conferences and vignettes offering solutions to common coaching challenges. Coaches will discover how to define an effective proactive role in promoting literacy initiatives, strengthen content knowledge and coaching skills to support teachers' efforts and students' literacy development, collaborate with teachers and school leaders to establish productive learning communities, and communicate their changing roles to administrators. Publisher's website *A Sense of Belonging* Jennifer Allen, 2023-10-10. Too often, new teachers enter the profession excited to make a difference in the lives of children, only to find themselves disillusioned and overwhelmed with the expectations of the classroom. In *A Sense of Belonging*, Jennifer Allen shares her stories and journey in creating an infrastructure of support for new teachers within her school district. *A Sense of Belonging* provides research-based practical ideas on how to support new teachers while honoring the innovation idealism and optimistic enthusiasm that they bring to the classroom. From supporting new teachers early in the year with administering and analyzing literacy assessments through using student work to guide instruction to offering ongoing help with curriculum planning, Jennifer shares strategies on fostering relationships with new teachers starting before school even begins, creating learning environments for new teachers to be reflective practitioners, coaching new teachers in their classrooms, and providing opportunities for them to observe their peers in action, supporting new teachers beyond their first year through gradual release of support over their first several years in the classroom, and facilitating professional development opportunities where new and veteran teachers learn alongside one another. Jennifer believes, and her book demonstrates, that when schools embrace, encourage, and celebrate the work of new teachers, they establish a supportive environment that fosters excellence and improves retention. **Becoming a Literacy Leader** Jennifer Allen, 2016. The first edition of *Becoming a Literacy Leader* chronicled Jennifer's work as she moved to a new school and a new job as a literacy specialist and found herself tackling everything from teacher study groups to state-mandated assessment plans. The new edition of her

book is a thoughtful reflective evolution of her work as she rethinks how her identity and role as a literacy leader have evolved in the ten years since she wrote the first edition She focuses on three ideas to describe her work the concept of layered leadership shared experiences in making meaning together and the importance of rowing in the same direction as a school community Jennifer firmly believes that teachers know what they need when it comes to professional development and she describes the layers of support that coaches can implement within a school including in class support curriculum support and assessment study group facilitation and the cultivation of teacher leadership She provides an explicit framework for implementing these layers of coaching and explains how administrators can use the literacy leader position to build and sustain change within their schools Literacy leaders and coaches can use this book as a road map for how to approach their work with purpose and intention Online videos that accompany the book bring the text alive by showing readers what coaching looks and sounds like

Teaching Elementary Social Studies James A. DuPlass, 2008 Written for the elementary social studies methods course this interactive program combines features of a textbook and a workbook with thorough integration between the print text and a dynamic web site Increasingly majors in elementary education if not the population at large are more attuned to reading interactive material with relatively brief narrative bulleted items text boxes and targeted messages like web pages rather than traditional denser text To accommodate these preferences the layout of the print text features a larger than usual font an 8 x 11 trim size and spiral binding and the content includes an abundance of bulleted lists shaded text boxes and contemporary graphics The program's interactive approach and flexibility allow the professor to model the kinds of teaching principles and practices that students will want to use in their own elementary school classrooms These principles and practices are integrated throughout the text and include a focus on active learning strategies application of constructivist principles focus on Big Ideas and thinking skills use of the Internet and modeling of Best Practices and Performance based assessments based on INTASC and NCATE standard Thus the book will serve as a springboard for classroom activities web site explorations and or instructor led activities
