Re-thinking Picturebooks for Intermediate and Advanced Learners: Perspectives for Secondary English Language Education Grit Alter, Thorsten Merse, 2023-11-27 Der didaktische Wert von Picturebooks für den Englischunterricht in der Grundschule gilt als unumstritten. Jedoch gibt es in Forschung und Unterrichtspraxis derzeit kaum Ansätze wie der Transfer dieses vermeintlich kindlichen Literaturmediums in die Sekundarstufe gelingen kann. Dieser Band legitimiert Picturebooks als komplex angelegte Textform, die sich auch mit fortgeschrittenen Lernenden zu kompetenz- und inhaltsorientierter Arbeit im Englischunterricht anbietet. Die im Band versammelten konzeptuellen und empirischen Perspektiven zeigen angehenden und praktizierenden Lehrkräften konkret auf, wie vielfältig Picturebooks den Unterricht bereichern können. Eine große Bandbreite praktischer Beispiele verdeutlicht ihr Potenzial für den Englischunterricht der Sekundarstufen von der Förderung verschiedener Literacies und literarischen Lernens bis hin zur Fokussierung von Themen wie Umwelt, sozialer Gerechtigkeit oder kultureller Diversität. The COVID-19 pandemic in the last two years has influenced how educational system works. Online learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread. Despite the drawbacks of the online learning, teachers and students were accustomed with the distant learning through web meetings, Learning Management Systems (LMS) and other online learning platforms. In that time, topics under digital learning and education 5.0 were the main stakes in academic disseminations. This year, some institutions start to conduct their teaching and learning process classically as before the pandemic; others are still continuing online and not few are in hybrid. This leaves a question: what learning reform should be made in post-pandemic era? This conference invites researchers, experts, teachers and students to discuss the coping solutions of the question. It is important for them to contribute to the understanding of re-imaging online education for better futures: innovative learning design, new skills for living and working in new times, global challenge of education, learning and teaching with blended learning, flipped learning, integrating life skills for students in the curriculum, developing educators for the future, distance learning, humanities learning in the digital era, assessment and measurement in education, challenges and transformations in education technology in teaching and learning, new learning and teaching models. Not limited to these, scholars may add another interesting topic related to learning reform in post-pandemic era to present. *Moderator-topics*, 1921 **Critic**
