Powerful PowerPoint for Educators David M. Marcovitz, 2012-05-15 This timely book helps educators unleash the interactive potential of PowerPoint to build their own multimedia material that perfectly matches the needs of their students While PowerPoint affords powerful capabilities for creating dynamic classroom lessons and enriching curriculum few educators understand how to take advantage of these built in features The second edition of this practical guide helps educators produce creative multimedia material for their students regardless of their level of programming proficiency Powerful PowerPoint for Educators Using Visual Basic for Applications to Make PowerPoint Interactive Second Edition discusses the educational benefits of multimedia instruction and provides a review of intermediate PowerPoint skills Author David Marcovitz explains the concept of Visual Basic for Applications VBA scripting and provides progressively advanced skills and practice examples While other books that describe VBA are written in a highly technical manner this book is geared toward educators with little or no programming background and includes tips for modifying the practice examples for their own interactive multimedia projects

Current Trends in EMI and Multimodality in Higher Education Vicent Beltrán-Palanques, Edgar Bernad-Mechó, 2024-07-08 Looking at both English Medium Instruction EMI and multimodality in higher education this edited volume bridges the gap between the two contexts by offering various new insights into fundamentals in multilingual education EMI discourse and current teaching practices in internationalised contexts Current demands in communication especially in higher education contexts require examining EMI from a multimodal perspective with the aim of giving explicit attention to modern discourse practices The contributors reflect on the principles guiding EMI and multimodality and their application in higher education using both practical examples and data driven evidences They

discuss EMI multimodal discourse from an empirical perspective to unveil communicative practices in internationalised higher education contexts and exemplify classroom applications and ESP and EAP pedagogical practices that promote multimodal competence in higher education The contributors provide solid theoretical foundations key principles research evidence and pedagogical implications that inform current methodologies and practices for EMI ESP and EAP as well as multimodality in higher education This volume on EMI and multimodality in higher education will have broad appeal for researchers worldwide from various fields of expertise within education and applied linguistics

Training and Development in Transnational Higher Education Morris, Gareth, Ye, Jinting, 2025-04-23 In an era of increasing globalization institutions of higher education are no longer bound by national borders With the globalization of higher education there is a growing need for further training and development among higher education educators Teachers as well as their students encounter challenges relating to English for Academic Purposes EAP and the vast diversity in the classroom By actively seeking professional development transnational educators may enhance their own teaching competencies and careers in addition to student engagement coping strategies and critical thinking skills Training and Development in Transnational Higher Education highlights the importance of training and development within various areas including curriculum design multicultural competency and self evaluation Covering topics such as character education university partnerships and gender dynamics this book is an excellent resource for educators school administrators educational leaders curriculum developers professionals researchers scholars academicians and more
