journey begins in Gambier Ohio home to affluent liberal Kenyon College a tiny speck of Democratic blue amidst the vast red swath of white post industrial rural midwestern America To understand the college question there is no better entry point than Gambier where a world class institution caters to elite students amidst a sea of economic despair From there Bunch traces the history of college in the U S from the landmark GI Bill through the culture wars of the 60 s and 70 s which found their start on college campuses We see how resentment of college educated elites morphed into a rejection of knowledge itself and how the explosion in student loan debt fueled major social movements like Occupy Wall Street Bunch then takes a question we need to ask all over again what and who is college even for and pushes it into the 21st century by proposing a new model that works for all Americans The sum total is a stunning work of journalism one that lays bare the root of our political cultural and economic division and charts a path forward for America
