and reliable chainsaw operators is greater today than ever before In fact statistics show that more people are injured cleaning up after a storm than in the storm itself Everyone benefits when storm cleanup and timber harvesting are done properly In these pages you will learn a chainsaw safety system based on the combination of statistically assimilated safety practices state of the art training and historical knowledge woven into an affirmable teachable and measurable system focused on work in the high risk environment of cutting wood with a chainsaw The Chainsaw Safety System will give you a new broader perspective on chainsaws trees and coworkers In fact it will test your integrity and help you train your brain to naturally recognize risks and neutralize them The chainsaw may be as safe as it s going to get but our brains continue to evolve and learn We can eliminate chainsaw accidents if we each put our mind to it and talk about the danger
