state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today's world He advocates a reorientation of democracy that de-emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that which informed the founding of the United States if democracy is to flourish in a fifth manifestation The Idea of Democracy in the Modern Era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future With its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era
