Conclusion Outline For Research Paper:

From Research to Manuscript Michael J. Katz, 2006-07-10 From Research to Manuscript written in simple straightforward language explains how to understand and summarize a research project It is a writing guide that goes beyond grammar and bibliographic formats by demonstrating in detail how to compose the sections of a scientific paper This book takes you from the data on your desk and leads you through the drafts and rewrites needed to build a thorough clear science article At each step the book describes not only what to do but why and how It discusses why each section of a science paper requires its particular form of information and it shows how to put your data and your arguments into that form Importantly this writing manual recognizes that experiments in different disciplines need different presentations and it is illustrated with examples from well written papers on a wide variety of scientific subjects As a textbook or as an individual tutorial From Research to Manuscript belongs in the library of every serious science writer and editor

Problem-Oriented Project Work Poul Bitsch Olsen, Kaare Pedersen, 2008-09-08 This book is meant to support problem oriented learning activities Problem orientation concerns the reasoning about lack of knowledge while project work includes the ethno methods that are practised when collectives produce scientific knowledge This book also concerns particular methods related to sociology and social science and their relations to the humanities technical knowledge and natural science The aim of the book is to support students in the process from their first reflections on a relevant question to the finishing moments of report writing Different steps and situations in the project work are described eg concepts situations ideas and tools for reflection that may be relevant throughout the project work The subtitle a workbook is meant literary as a book that may be used as collective knowledge situations become recognisable for the users
