

Example Conclusion Paragraph:

In conclusion, a school with uniforms offers a bland environment that squashes a student's individuality. As a stakeholder in this school, you should seek to preserve the individual spirit of students and vote "no" on school uniforms. With standardized testing being the driving force in education, students are expected to fit into some "one size fits all" mold. Uniforms would only further cause students to lose yet another means of personal expression. Students face so many challenges in education with less time to relax and be themselves. Expecting them to walk around like clones in uniforms will only cause students to be even less excited about going to school.
