Spanish poetry while remaining attentive to the differences among writers of the same historical moment The modernist poets of the earlier part of the century are preoccupied by the problem of literary mimesis the representation of reality through language In the postwar years poets turned their attention to the social and ethical dimensions of poetic language The postmodernists of more recent decades finally are increasingly concerned with their own belatedness with respect to cultural traditions of the past Critics hailed Jonathan Mayhew's first book Claudio Rodriguez and the Language of Poetic vision as an enlightening and timely book on perhaps Spain's greatest living poet and a signal first effort from a critic with high scholarly standards and a penetrating insight into contemporary poetry With *The Poetics of Self Consciousness* Twentieth Century Spanish Poetry readers will discover another probing study of other modern and postmodern Spanish poets
