David Bergsland, 2011-10-29 Why do you want to use Fontographer For the fun of it When I received the opportunity to go back to my roots and see what the new Fontographer was like I was a little concerned I had just spent nine years painfully teaching myself to letterspace by hand to write OpenType features and to become accustomed to the tool set of FontLab Don t get me wrong FontLab is a great program There are still a few features of FontLab that as a professional font designer I cannot do without But I was taken by surprise Fontographer brought the fun back It is still the same marvelous program with which I first learned to design fonts The drawing interface is still clean clear and elegant It still works the way I have learned to work over the past two decades of digital graphic design I found pleasure in drawing again Fontographer is a wonderful drawing experience It has been a real joy to experience that again After nearly a decade in FontLab font design is fun again
