The HS 300 Individual is a closed-back aviation headset with an ambient noise attenuation of approximately 30 dB for the use in propeller and turboprop aircrafts. The soft, circumaural ear pads and the adjustable padded headband provide a high comfort. The microphone with adjustable gain can be optimally positioned with the flexible gooseneck. The figure-eight polar pattern ensures a very good noise cancellation. The rotating microphone holder allows positioning the microphone on the right or left hand side.

The single-sided connecting cable provides an audio box to adjust the volume of the headphone and to connect a mobile phone or music player (e.g. CD or MP3 player). If signals from the intercom occur, the volume of the mobile phone or music player can be reduced automatically. This function can also be switched off.
