Beyond Religion, 2014

Beyond Religion H.H. Dalai Lama, Alexander Norman, 2011-12-06 An unprecedented literary event a beloved world religious leader proposes a way to lead an ethical happy and spiritual life beyond religion and offers a program of mental training for cultivating key human values Over twenty years ago in his best selling Ethics for a New Millennium His Holiness

the Dalai Lama first proposed an approach to ethics based on universal rather than religious principles In *Beyond Religion* the Dalai Lama at his most compassionate and outspoken elaborates and deepens his vision for the nonreligious way Transcending the mere religion wars he outlines a system of ethics for our shared world one that gives full respect to religion With the highest level of spiritual and intellectual authority the Dalai Lama makes a stirring appeal for what he calls a third way a path to an ethical and happy life and to a global human community based on understanding and mutual respect *Beyond Religion* is an essential statement from the Dalai Lama a blueprint for all those who may choose not to identify with a religious tradition yet still yearn for a life of spiritual fulfillment as they work for a better world The Seductiveness of Virtue John J. Fitzgerald,2016-12-15 John J Fitzgerald addresses here one of life s enduring questions how to achieve personal fulfillment and more specifically whether we can do so through ethical conduct He focuses on two significant twentieth century theologians Rabbi Abraham Joshua Heschel and Pope John Paul II seeing both as fitting dialogue partners given the former s influence on the Second Vatican Council s deliberations on the Jews and the latter s groundbreaking overtures to the Jews in the wake of his experiences in Poland before and during World War II Fitzgerald demonstrates that Heschel and John Paul II both suggest that doing good generally leads us to growth in various components of personal fulfillment such as happiness meaning in life and freedom from selfish desires There are however some key differences between the two theologians John Paul II emphasizes more strongly the relationship between acting well and attaining eternal life whereas Heschel wrestles more openly with the possibility that religious commitment ultimately involves anxiety and sadness By examining historical and contemporary analyses including the work of the Fourteenth Dalai Lama the philosopher Peter Singer and some present day psychologists Fitzgerald builds a narrative that shows the promise and limits of Heschel s and John Paul II s views *Preparing Students for Life Beyond College* Robert J. Nash,Jennifer J.J. Jang □□ □,2015-03-05 At a time when STEM research and new technologies are dominating the curricula of colleges and universities this important book refocuses the conversation on holistic education for all students Organized around the most important and difficult questions that students face *Preparing Students for Life Beyond College* explores a vision of education that will enable students to talk about universal issues openly and honestly preparing them for life beyond their formal education Featuring a variety of traditional and innovative pedagogies strategies recommendations and case studies this practical resource provides student affairs practitioners and higher education faculty in a variety of disciplines with concrete approaches for developing campuses and classes that encourage critical thinking and reflection This exciting book prepares colleges and universities to help students create meaning in their lives no matter the discipline campus location or delivery system *Religious Diversity--What's the Problem?* Rita M. Gross,2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world s

various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author s longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture

Comparative Approaches to Compassion Ramin

Jahanbegloo,2022-06-30 Ramin Jahanbegloo develops the concept of compassion as a practical and ethical response to the problems of today s world Examining the power of compassion through the lens of multiple world religions he explores ahimsa in Buddhism Jainism and Hinduism and neighbourly love in Christianity before synthesizing the two concepts in the Gandhian theory of non violence and its impact on Muslim and Christian thinkers such as Abdul Ghaffar Khan and Martin Luther King Jr Jahanbegloo considers the idea of a compassionate civilization based on the nonviolent democratic theory put forward by Gandhi with Swaraj and completed by Martin Luther King Jr with the Beloved Community By scrutinizing compassion in various religious and ethical traditions and exploring the relevance of homo fragilis Jahanbegloo s comparative approach enriches our understanding of nonviolence as a universal philosophy and practice for the 21st century He shows that nonviolence is not only a mode of thinking and a way of life but also a powerful strategy of social and political transformation
