## **Bible Translation Magazine All Things Bible Translation April 2014:**

*Bible Translation Magazine* Edward Andrews, 2014-04-01 The new translation philosophy is called dynamic equivalence but that designation is very inadequate to cover all that modernizing translations actually do In fact equivalence is not usually what these translations give Usually they give a substitution or replacement for what the original says Additionally dynamic equivalent translators omit material from material in the original and add to it Dynamic equivalent translators feel no compulsion to reproduce in English the words that the biblical authors wrote In fact the prefaces to these translations as well as surrounding published materials and interviews hold verbal equivalence up to scorn These prefaces and translators are bold to claim that a translation that departs from the words of the biblical authors is often more accurate than translations that reproduce the words of the original text Leland Ryken [BIBLE TRANSLATION MAGAZINE: All Things Bible Translation \(January 2014\)](#) Edward Andrews, 2014-01-01 The average Christian often misunderstands the common saying that all translation is interpretation Ryken 2009 27 because those of the DE camp often misuse it All translation is lexical interpretation The translator has a choice before him as to which English word or phrase faithfully agrees to the OL word Because this is an actual choice on the part of the translator it could be argued that some level of interpretation is involved However this is not a good use of the word interpretation Translation is interpretation when a translator takes an idiom hyperbole figurative symbolic or technical term and then unnecessarily goes beyond the literal translation process because he feels it is too difficult for the reader to understand therefore he interprets what the author meant by his use of that word or phrase in the OL text and the DE translator places that meaning in the English translation Lexical or linguistic interpretation on the other hand is something akin to interpretation when translators decide whether for example the Israelites were led through the wilderness or the desert Ryken 2009 27 [BIBLE TRANSLATION MAGAZINE: All Things Bible Translation \(February 2014\)](#) Edward Andrews, 2014-02-02 The Bible was originally penned in ancient Hebrew Aramaic and Greek Therefore unless one can fluently read all three of those languages the reader of the Bible must rely on a translation There is no other book that has been translated more times than the Bible All or part of the Bible has been translated into 2 798 languages as of November 2012 Some languages like English have more than one translation English has over 100 from which a reader can choose Of course this brings up the question of which is the very best translation To answer the above the reader must be able to make an informed decision in answering the following questions What different types of translations are there Of these different types of translations what are the strengths and weaknesses of each How can we know which type is preferred Why should we be cautious when we read certain types of translations **Bible Translation Magazine** Edward D. Andrews, 2014-07-01 Bible Translation Magazine is hard at work for all individuals interested in the Bible translation process from the person who has just purchased his first Bible to the professional translator The main purpose of our work is education Our articles are a place for those who are sincerely interested in the

importance of the translation process as well as which translations would be the most beneficial to use. The translation of God's Word from the original languages of Hebrew, Aramaic and Greek is a task unlike any other and should never be taken lightly because it carries with it the heaviest responsibility: the translator renders God's thoughts into a modern language. It is our desire to take difficult and complex subjects and make them easy to understand. We wanted to create a publication that would communicate as clearly and powerfully as possible to all of today's readers.

**Bible Translation Magazine** Edward Andrews, 2014-11-28. These are some of the facts which are connected with our Bible as we now have it and from them we can proceed to consider the various points which are involved in our belief that the Bible is for us the Word of GOD and as such the rule of our faith and practice. Because almost no churches have an evangelism program almost no Christians are aware of the extraordinary joy associated with making disciples by teaching them. Paul and his more than one hundred traveling companions knew this special joy all too well. 1 Thessalonians 2:19-20. English Standard Version (ESV) 19: For what is our hope or joy or crown of boasting before our Lord Jesus at his coming? Is it not you? 20: For you are our glory and joy.

**Bible Translation Magazine** Edward Andrews, 2014-09-02. Those who wish to read the Bible likely only have access to a translation as it was originally written in ancient Hebrew, some Aramaic and Greek. As of 2010 there are 6,900 languages spoken in the world today with 2,100 still needing the Bible translated into their language. Wycliffe Translators 1. The English speaking world has over 100 different translations while others have just one. In fact the Bible has even been translated into Klingon, the made up language of the television show Star Trek. If we are one of the fortunate ones who have a choice we certainly want to choose the Bible that is literal, accurate, clear, natural and easy to understand.

**Bible Translation Magazine** Edward Andrews, 2014-11-01. If asked what the number one priority in translation is, most translators would argue that the biggest responsibility is accuracy. However, if this conversation were between a translator of a literal or verbal corresponding word for word mindset and one of the thought for thought, sense for sense, meaning based mindset, the next question would be what do you mean by accuracy? The thought for thought translator would most certainly say to render the Biblical meaning of the original language text as accurately as possible into English. The literal side would return with to render the words and style of the original language text into a corresponding English equivalent word or phrase as accurately as possible. The dynamic equivalent translator is attempting to re-express what they believe the original language text meant into English, removing the need of interpretive reading for the modern day Bible student. The literal translator wants to re-express what the original language text says into a corresponding English equivalent, leaving it up to the reader to determine the meaning for himself.
