working across southeast Asia **The Secret Life of the Modern House** Dominic Bradbury, 2021-04-01 Informative and entertaining this publication is a feast for the eyes while also thought provoking and offers excellent inspiration for daydreaming about what makes the perfect modern house Wallpaper A fascinating selection of innovative homes this is a thoughtful journey through the evolution of domestic architecture Sunday Express Over the last century the way that we live at home has changed dramatically Nothing short of a design revolution has transformed our houses and the spaces within them moving from traditional patterns of living all the way through to an era of more fluid open plan and modern styles Whether we live in a new home or a period house our spaces will have been shaped one way or another by the pioneering Modernists and Mid century architects and designers who argued for a fresh way of life Architectural and design writer Dominic Bradbury charts the course of this voyage all the way from the late 19th century through to the houses of today in this ground breaking book Over nineteen thematic chapters he explains the way our houses have been reinvented while taking in along the way the giants of Art Deco influential Modernists including Le Corbusier and Frank Lloyd Wright as well as post war innovators such as Eero Saarinen and Philip Johnson Taking us from the 20th to the 21st century Bradbury explores the progress of modernity itself and reveals the secret history of our very own homes Spaces of Spirituality Nadia Bartolini, Sara MacKian, Steve Pile, 2018-02-15 Spirituality is too often subsumed under the heading of religion and treated as much the same kind of thing Yet spirituality extends far beyond the spaces of religion The spiritual makes geography strange challenging the relationship between the known and the unknown between the real and the ideal and prompting exciting possibilities for charting the ineffable spaces of the divine which lie somehow beyond geography In setting itself that task this book pushes the boundaries of geographies of religion to bring into direct focus questions of spirituality By seeing religion through the lens of practice rather than as a set of beliefs geographies of religion can be interpreted much more widely bringing a whole range of other spiritual practices and spaces to light The book is split into three sections each contextualised with an editors introduction to explore the spaces of spiritual practice the spiritual production of space and spiritual transformations This book intends to open to up new questions and approaches through the theme of spirituality pushing the boundaries on current topics and introducing innovative new ideas including esoteric or radical spiritual practices This landmark book not only captures a significant moment in geographies of spirituality but acts as a catalyst for future work **Architecture and Nationalism in Sri Lanka** Anoma Pieris, 2013 The role of the home the domestic sphere and the intimate ethno cultural identities that are cultivated within it are critical to understanding the polemical constructions of country and city tradition and modernity and regionalism and cosmopolitanism The home is fundamental to ideas of the homeland that give nationalism its imaginative form and its political trajectory This book explores positions that are vital to ideas of national belonging through the history of colonial bourgeois self fashioning and post colonial identity construction in Sri Lanka The country remains central to related architectural discourses due to its

emergence as a critical site for regional architecture post independence Suggesting patterns of indigenous accommodation and resistance that are expressed through built form the book argues that the nation grows as an extension of an indigenous private sphere ostensibly uncontaminated by colonial influences domesticating institutions and appropriating rural geographies in the pursuit of its hegemonic ideals This ambitious comprehensive wide ranging book presents an abundance of new and original material and many imaginative insights into the history of architecture and nationalism from the mid nineteenth century to the present day *The Multi-Skilled Designer* Newton D'souza,2019-11-21 The Multi Skilled Designer presents and analyzes different approaches to contemporary architectural design and interprets them through the theory of multiple intelligences The book establishes a systematic framework that uses the lens of cognitive psychology and developments in psychometric and brain research to analyze the unique cognitive thought processes of architectural designers and compiles design projects that could serve as a pedagogical companion for the reader The book is aimed at design practitioners and students interested in examining their own thinking styles as well as those involved in design cognition research **Southeast Asia's Modern Architecture** Jiat-Hwee Chang,Imran bin Tajudeen,2019 What is the modern in Southeast Asia s architecture and how do we approach its study critically This pathbreaking multidisciplinary volume is the first critical survey of Southeast Asia s modern architecture It looks at the challenges of studying this complex history through the conceptual frameworks of translation epistemology and power Challenging Eurocentric ideas and architectural nomenclature the authors examine the development of modern architecture in Indonesia Malaysia Myanmar the Philippines Singapore Thailand and Vietnam with a focus on selective translation and strategic appropriation of imported ideas and practices by local architects and builders The book transforms our understandings of the region s modern architecture by moving beyond a consideration of architecture as an aesthetic artifact and instead examining its entanglement with different dynamics of power 〇〇〇〇〇〇 ,1971 *Art and AsiaPacific* ,2008 *The Spectator* ,2008

Bawa: the Sri Lanka Gardens David Robson,2009-03-24 Geoffrey Bawa s architectural work is well documented but less attention has been paid to his work on gardens This book focuses on his two most famous gardens Lunuganga on his own estate and the lesser known garden he fashioned for his brother Bevis Evolved over several decades the gardens and their outbuildings and sculpture represent high points of all encompassing tropical design This book begins with a largely photographic overview of Sri Lanka s natural features showing the varied palette of landscapes that inspired Bawa s sensitive treatment of architecture At the very heart of the book is an intimate portrait of two exquisitely detailed gardens and the personalities that brought them into being But it is also a story about the nature and landscape of an island of exceptional beauty As such the book has something to offer followers of Geoffrey Bawa tropical garden enthusiasts and to all those seeking a photographic portrait of Sri Lanka **The Iconic House** Dominic Bradbury,2009-10-27 The Iconic House features one hundred of the most important and influential architect designed houses in the world Inside cover **Ilankait Tēciya**
