Bible In Sesotho:

[Re]Gained in Translation, Volume 1-2 Sabine Dievenkorn, Shaul Levin, 2024-02-26 Volume 1 Translations of the Bible take place in the midst of tension between politics ideology and power With the theological authority of the book as God's Word not focusing on the process of translating is stating the obvious Inclinations fluency and zeitgeist play as serious a role as translators' person faith and worldview as do their vocabulary poetics and linguistic capacity History has seen countless retranslations of the Bible What are the considerations according to which Biblical retranslations are being produced in current 21st century contexts From retranslations of the Hebrew Bible to those of the Old and New Testaments to mutual influences of Christian and Jewish translational traditions the papers collected here all deal with the question of what is to be re-gained with the production of a new translation where at times many a previous one has already existed Volume 2 Times are changing and with them the norms and notions of correctness Despite a wide spread belief that the Bible as a sacred original only allows one translation if any new translations are constantly produced and published for all kinds of audiences and purposes The various paradigms marked by the theological political and historical correctness of the time group and identity and bound to certain ethics and axiomatic norms are reflected in almost every current translation project Like its predecessor the current volume brings together scholars working at the intersection of Translation Studies Bible Studies and Theology all of which share a special point of interest concerning the status of the Scriptures as texts fundamentally based on the act of translation and its recurring character It aims to breathe new life into Bible translation studies unlock new perspectives and vistas of the field and present a bigger picture of how Bible re-translation works in society today

[Re]Gained in Translation II Sabine Dievenkorn, Shaul Levin, 2024-02-26 Times are changing and with them the norms and notions of correctness Despite a wide spread belief that the Bible as a sacred original only allows one translation if any new translations are constantly produced and published for all kinds of audiences and purposes The various paradigms marked by the theological political and historical correctness of the time group and identity and bound to certain ethics and axiomatic norms are reflected in almost every current translation project Like its predecessor the current volume brings together scholars working at the intersection of Translation Studies Bible Studies and Theology all of which share a special point of interest concerning the status of the Scriptures as texts fundamentally based on the act of translation and its recurring character It aims to breathe new life into Bible translation studies unlock new perspectives and vistas of the field and present a bigger picture of how Bible re-translation works in society today **Ideology, Culture, and Translation** Scott S. Elliott, Roland Boer, 2012-11-14 Translation is a fundamental aspect of biblical scholarship and an ever present reality in a global context Scholars interested in more than linguistically oriented translation problems of a traditional nature often struggle to find an interdisciplinary venue in which to share their work These essays by means of critical engagement with the translation practices and translation history of texts relevant to the study of Bible and ancient and modern

Christianity explore theoretical dimensions and contemporary implications of translations and translation practice The contributors are George Aichele Roland Boer Virginia Burrus Alan Cadwallader K Jason Coker John Eipper Scott S Elliott Raj Nadella Flemming A J Nielsen Christina Petterson Naomi Seidman Jaqueline du Toit Esteban Voth and Matt Waggoner

Orality and Translation Paul Bandia, 2018-10-11 In the current context of globalization relocation of cultures and rampant technologizing of communication orality has gained renewed interest across disciplines in the humanities and the social sciences Orality has shed its once negative image as primitive non literate and exotic and has grown into a major area of scientific interest and the focus of interdisciplinary research including translation studies As an important feature of human speech and communication orality has featured prominently in studies related to pre modernist traditions modernist representations of human history and postmodernist expressions of artistry such as in music film and other audiovisual media Its wide appeal can be seen in the variety of this volume in which contributors draw from a range of disciplines with orality as the point of intersection with translation studies This book is unique in its exploration of orality and translation from an interdisciplinary perspective and sets the groundwork for collaborative research among scholars across disciplines with an interest in the aesthetics and materiality of orality This book was originally published as a special issue of Translation Studies
