

5.2 Practice A

Tell which equation you would choose to solve for one of the variables when solving the system by substitution. Explain your reasoning.

1. $y = 5x - 2$

$2x + 9y = 10$

2. $3x - 7y = 12$

$3x - 12y = 6$

3. $\frac{1}{5}x + y = 8$

$4x - 3y = 1$

Solve the system of linear equations by substitution. Check your solution.

4. $y = x + 3$

$y = 5x - 5$

5. $y = 3x - 1$

$y = x - 7$

6. $x = 5y + 2$

$x - 4y = 5$

7. The gym has a total of 25 treadmills and stationary bikes. There are 7 more stationary bikes than treadmills.

- Write a system of linear equations that represents this situation.
- How many treadmills are in the gym?
- How many stationary bikes are in the gym?

Solve the system of linear equations by substitution. Check your solution.

8. $x - y = 9$

$2x + 5y = 4$

9. $2x + 3y = 25$

$4x - y = 15$

10. $3x - 6y = 2$

$4x + 3y = -1$

11. A drawer contains 24 spoons and forks. There are three times as many spoons as forks.

- Write a system of linear equations that represents this situation.
- How many spoons are in the drawer?
- How many forks are in the drawer?

12. The perimeter of a rectangle is 34 centimeters. The length is two more than twice the width. Write and solve a system of linear equations to find the length and the width of the rectangle.

Connecting Standards and Assessment Through Literacy Mark William Conley, 2005
This exciting new text examines the connection between meeting literacy standards and conducting literacy assessments and helps students understand the confusing world of standards and tests directly affecting today's classrooms. Taking a common sense approach to the complex set of assessment challenges teachers face today, respected author Mark Conley maps a clear route to balance the use of large scale assessment to serve its intended purposes and the use of classroom assessment to meet the information needs of its intended users. Sure to get students engaged and thinking critically about assessment in standards-based schools, Conley challenges students to address a critical assessment issue: assessment evaluation and grading practices born and bred to produce dependable rankings that is to help only a few students succeed must now be transformed into practices that permit all students to succeed. Some of the topics featured in the text, e.g., and instruction in relation to assessment, early literacy standards, and assessments have been carefully selected for their currency, importance, and relevance to students' needs. A great text for any student in a teacher preparation program.

Connecting Standards and Assessments Through Literacy helps pre-service teachers make clear meaning out of the complexity surrounding assessment and guides them in making practical connections between standards test performance and future classroom practice.
