Congress. House. Committee on International Relations,United States. Congress. House. Committee on International Relations. Subcommittee on International Organizations,1978      **The Land Grabbers** Fred Pearce,2012-05-29 How Wall Street Chinese billionaires oil sheiks and agribusiness are buying up huge tracts of land in a hungry crowded world An unprecedented land grab is taking place around the world Fearing future food shortages or eager to profit from them the world s wealthiest and most acquisitive countries corporations and individuals have been buying and leasing vast tracts of land around the world The scale is astounding parcels the size of small countries are being gobbled up across the plains of Africa the paddy fields of Southeast Asia the jungles of South America and the prairies of Eastern Europe Veteran science writer Fred Pearce spent a year circling the globe to find out who was doing the buying whose land was being taken over and what the effect of these massive land deals seems to be The Land Grabbers is a first of its kind expos that reveals the scale and the human costs of the land grab one of the most profound ethical environmental and economic issues facing the globalized world in the twenty first century The corporations speculators and governments scooping up land cheap in the developing world claim that industrial scale farming will help local economies But Pearce s research reveals a far more troubling reality While some mega farms are ethically run all too often poor farmers and cattle herders are evicted from ancestral lands or cut off from water sources The good jobs promised by foreign capitalists and home governments alike fail to materialize Hungry nations are being forced to export their food to the wealthy and corporate potentates run fiefdoms oblivious to the country beyond their fences Pearce s story is populated with larger than life characters from financier George Soros and industry tycoon Richard Branson to Gulf state sheikhs Russian oligarchs British barons and Burmese generals We discover why Goldman Sachs is

buying up the Chinese poultry industry what Lord Rothschild and a legendary 1970s asset stripper are doing in the backwoods of Brazil and what plans a Saudi oil billionaire has for Ethiopia Along the way Pearce introduces us to the people who actually live on and live off of the supposedly empty land that is being grabbed from Cambodian peasants victimized first by the Khmer Rouge and now by crony capitalism to African pastoralists confined to ever smaller tracts Over the next few decades land grabbing may matter more to more of the planet's people than even climate change It will affect who eats and who does not who gets richer and who gets poorer and whether agrarian societies can exist outside corporate control It is the new battle over who owns the planet
