Colonial Desire Robert Young:

Colonial Desire Robert Young,1995 The language of contemporary cultural theory shows remarkable similarities with the patterns of thought which characterised Victorian racial theory Far from being marked by a separation from the racialised thinking of the past Colonial Desire shows we are operating in complicity with historical ways of viewing the other both sexually and racially Colonial Desire is a controversial and bracing study of the history of Englishness and culture Robert Young argues that the theories advanced today about post colonialism and ethnicity are disturbingly close to the colonial discourse of the nineteenth century Englishness Young argues has been less fixed and stable than uncertain fissured with difference and a desire for otherness *Colonial Fantasies* Meyda Yegenoglu,1998-04-30 In this 1998 book Meyda Yegenoglu investigates the intersection between post colonial and feminist criticism focusing on the Western fascination with the veiled women of the Orient She examines the veil as a site of fantasy and of nationalist ideologies and discourses of gender identity analyzing travel literature anthropological and literary texts to reveal the hegemonic colonial identity of the desire to penetrate the veiled surface of otherness Representations of cultural difference and sexual difference are shown to be inextricably linked and the figure of the Oriental woman to have functioned as the veiled interior of Western identity

Colonial Desire Robert J. C. Young,2005-08-05 The language of contemporary cultural theory shows remarkable similarities with the patterns of thought which characterised Victorian racial theory Far from being marked by a separation from the racialised thinking of the past Colonial Desire shows we are operating in complicity with historical ways of viewing the other both sexually and racially Colonial Desire is a controversial and bracing study of the history of Englishness and culture Robert Young argues that the theories advanced today about post colonialism and ethnicity are disturbingly close to the colonial discourse of the nineteenth century Englishness Young argues has been less fixed and stable than uncertain fissured with difference and a desire for otherness **Voices from the Margin** R.S. Sugirthharajah,2015-03-04 An essential resource on interpretations of the Bible from scholars around the world This substantially revised edition has been expanded to include sixteen new essays and a new section on postcolonial readings of scripture It also contains a new introduction and an afterword by the editor calling attention to new developments in biblical interpretation *Human Exhibitions* Rikke Andreassen,2016-03-09 From the 1870s to the second decade of the twentieth century more than fifty exhibitions of so called exotic people took place in Denmark Here large numbers of people of Asian and African origin were exhibited for the entertainment and education of a mass audience Several of these exhibitions took place in Copenhagen Zoo where different villages constructed in the middle of the zoo hosted men women and children who sometimes stayed for months performing their daily lives for thousands of curious Danes This book draws on unique archival material newly discovered in Copenhagen including photographs documentary evidence and newspaper articles to offer new insights and perspectives on the exhibitions both in Copenhagen and in other European cities Employing post colonial and feminist

approaches to the material the author sheds fresh light on the staging of exhibitions the daily life of the exhibitees the wider connections between shows across Europe and the thinking of the time on matters of race science gender and sexuality A window onto contemporary racial understandings Human Exhibitions presents interviews with the descendants of displayed people connecting the attitudes and science of the past with both our continued modern fascination with the exotic and contemporary language and popular culture As such it will be of interest to scholars of sociology anthropology and history working in the areas of gender and sexuality race whiteness and post colonialism **The Englishized Subject** Kwok-kan Tam,2019-01-08 This book addresses issues of how the cultures in Hong Kong Singapore and Malaysia have been Englishized in postcolonial and globalized contexts not just in terms of language but also in writers people s subjectivity Taking a cultural literary approach to the study of Englishized subjectivity the book offers a unique study of hybridized literary language forms by relating them to bilingual thinking and bicultural sensibility Poets novelists and playwrights have different strategies to cope with new images and new forms of expression that can capture their sense of hybridized identity and as a result hybridity becomes creativity An Introduction to Literature, Criticism and Theory Andrew Bennett,Nicholas Royle,2014-07-10 Fresh original and compelling An Introduction to Literature Criticism and Theory is the essential guide to literary studies Starting at the beginning and concluding with the end the book covers topics that range from the familiar character narrative the author to the more unusual secrets pleasure ghosts Eschewing abstract isms Bennett and Royle successfully illuminate complex ideas by engaging directly with literary works so that a reading of Jane Eyre opens up ways of thinking about racial difference whilst Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literary laughter Each chapter ends with a narrative guide to further reading and the book also includes a glossary and bibliography The fourth edition has been revised to incorporate two timely new chapters on animals and the environment A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader s eyes to the exhilarating possibilities of both reading and studying literature **Accented America** Joshua L. Miller,2011-05-26 Accented America is a sweeping study of U S literature between 1890 1950 that reveals a long history of English Only nationalism the political claim that U S citizens must speak a nationally distinctive form of English This perspective presents U S literary works written between the 1890s and 1940s as playfully painfully and ambivalently engaged with language politics thereby rewiring both narrative form and national identity The United States has always been a densely polyglot nation but efforts to prove the existence of a nationally specific form of English turn out to be a development of particular importance to interwar modernism If the concept of a singular coherent and autonomous American language seemed merely provocative or ironic in 1919 when H L Mencken emblazoned the phrase on his philological study within a short period of time it would come to seem simultaneously obvious and impossible Considering the continuing presence of fierce public debates over U S English and domestic multilingualisms demonstrates the symbolic and material implications of such debates

in naturalization and citizenship law presidential rhetoric academic language studies and the artistic renderings of novelists Against the backdrop of the period s massive demographic changes *Accented America* brings a broadly multi ethnic set of writers into conversation including Gertrude Stein Jean Toomer Henry Roth Nella Larsen John Dos Passos Lionel Trilling Amrico Paredes and Carlos Bulosan These authors shared an acute sense of linguistic standardization during the interwar era and contend with the defamiliarizing sway of radical experimentation with invented and improper literary vernaculars Mixing languages these authors spurn expectations for phonological exactitude to develop multilingual literary aesthetics Rather than confirming the powerfully seductive subtext of monolingualism that those who speak alike are ethically and politically likeminded multilingual modernists composed interwar novels that were characteristically American because not in spite of their synthetic syntaxes and enduring strangeness

Postcolonialism: A Very Short Introduction Robert J. C.

Young,2003-06-26 This innovative and lively book is quite unlike any other introduction to postcolonialism Robert Young examines the political social and cultural after effects of decolonization by presenting situations experiences and testimony rather than going through the theory at an abstract level He situates the debate in a wide cultural context discussing its importance as an historical condition with examples such as the status of aboriginal people of those dispossessed from their land Algerian ra music postcolonial feminism and global social and ecological movements Above all Young argues postcolonialism offers a political philosophy of activism that contests the current situation of global inequality and so in a new way continues the anti colonial struggles of the past ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Disjunctive Empire of International Relations Leong Yew,2003

Yew imparts that contemporary forms of imperialism revolve around a disjunctive logic allowing cultural civilizing and solipsistic feelings of classical European imperialism to interoperate with newer and morally rectified strains of American superpower dominance In order to explore how such an interoperability is possible this book begins with a theoretical overview of how imperialism should be conceptualized how it operates and how it produces a type of economy that allows it to evolve in accordance with historical transformations without losing sight of its ongoing emphasis of Western hegemony ambivalent form of US imperialism is constituted leading to the inability within American society to effectively handle non state political opposition There are therefore a number of intended readerships which include researchers and academics interested in new ways of thinking about imperialism and international relations and a wider audience in cultural studies postcolonial studies and critical theory
