King,Martin James Stormzand,1926 **Standardized Exercises in United States History** Sturgiss Brown Davis,2016-06-24 Excerpt from Standardized Exercises in United States History Colonial Period The plan used in standardizing the material of tests is given in more than usual detail in the hope that teachers of history and supervisory officers may be able to profit by the experience of the writer and extend the work here started Care has been taken to exercise simplicity and directness at all times so that the student who is just beginning research work in education may find directly or indirectly answers to questions of statistical procedure Briefly the study was carried out as follows After determining tentatively the aims and limits of the investigation the material to be standardized was selected from a source of

unquestioned value This material was then put in the form of exercises to be worked out by pupils The responses of these pupils were then scored tabulated evaluated and finally weighted in terms of the functions of the Normal Frequency Curve These weightings confirmed the belief in the possibility of classifying the exercises into tests and scales They also showed that there are four distinct types of historical material characterized by the difficulty pupils have in comprehending them Such classifications were made both in form and content While these classifications are correct theoretically it was deemed wise for practical purposes to consider only the approximate weighting of each exercise and to reclassify all the standardized material into two tests In this form some accuracy was sacrificed but the reliability for supervisory purposes is just as valid A Teacher's Manual was prepared which gives full directions for administering scoring and using the results of the two tests formulated for school use About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
