**Contemporary Management Principles** Marria Vrba, Tersia Botha, 2024

Change is the distinguishing characteristic of the business environment across the world and it affects how contemporary organisations operate. While organizations need to do more with less, they also have to satisfy the needs of their customers who, with more exposure to local and global markets, have higher expectations relating to the cost, quality, speed, and innovation of the services and products they purchase from these organizations. In response to the changes in their business environment, organizations are becoming flatter, networked, global, more flexible and diverse, and managers have to acquire the skills to face the challenges associated with these features. The contemporary management principles offered in this publication integrate discussions on vital managerial competencies and skills with information on traditional and essential managerial concepts that have been effective in the past and are still relevant.
