The Tragedy of Common Sense John P. Clark,2016-08-01 Introduction by Salvatore Engel Di Mauro Foreword by Ariel Salleh This book takes as its object of critique one of the best known and most influential arguments in contemporary applied ethics which is biologist Garrett Hardin s case for lifeboat ethics John Clark analyzes the moral dimensions of world hunger foreign aid immigration policy and population growth Clark critiques the lifeboat ethics as a way to explore in depth both the common and the commons It is about the truth we hold in common and about certain falsehoods that we hold in common This book also contains Garrett Hardin s 1974 essay Living on a Lifeboat

Morals and Consent Malcolm Murray,2017-09-27 How are we meant to behave And how are we to defend whatever answer we give **Morals and Consent** grounds our notion of morality in natural evolution and from that basis Malcolm Murray shows why contractarianism is a far more viable moral theory than is widely believed The scope of **Morals and Consent** has two main parts theory and application In his discussion of theory Murray defends contractarianism by appealing to evolutionary game theory and metaethical analyses His main argument is that we are not going to find morality as an objective fact in the world and that instead we can understand morality as a reciprocal cooperative trait From this minimal moral architecture Murray derives his innovative consent principle The application of the theory detailing what contractarians can or ought to say about moral matters takes up the greater portion of the work Murray offers a trenchant examination of what moral constraints we can claim concerning death abortion euthanasia and capital punishment sex pornography prostitution and sexual assault beneficence toward present and future people animals and the environment and liberty genetic enhancement organ sales and

torture By focusing on evolutionary contractarianism and the epistemic justification of our moral claims or lack thereof
