The 'Final Solution' in Riga Andrej Angrick, Peter Klein, 2012 With its over thousand detailed and expansive footnotes drawing on twenty four different archive collections in eight countries and three continents and an enormous secondary literature this is one of the best researched regional studies of the Holocaust ever to appear It is helped by the fact that the authors are also always so cognizant of what was happening elsewhere in Europe at the same time and thus frequently draw out the relationship between seemingly haphazard local decisions and trends across Europe Indeed the way in which the book makes sense of complex institutional behavior is at times breathtaking The precision in the detail and the scope of the contextualization make this one of the more important works to appear on the Holocaust in recent years

English Historical Review This very readable and well documented study fills an important gap in the Holocaust literature it offers insight into the microcosm reflecting the entire terrifying and murderous scenario of the SS State Frankfurter Allgemeine Zeitung This excellent study of the Riga ghetto informed by Eastern European sources and available now in English translation provides a precise and ghastly description of what the liquidation meant for the local Jews With laudable thoroughness they describe the organized shooting of Jews the first form of industrial scale mass murder

The New York Review of Books Ghetto forced labor camp concentration camp All of the elements of the National Socialists policies of annihilation were to be found in Riga This first analysis of the Riga ghetto and the nearby camps of Salaspils and Jungfernhof addresses all aspects of German occupation policy during the Second World War Drawing upon a broad array of sources that includes previously inaccessible Soviet archives postwar criminal investigations and trial records of alleged perpetrators and the records of the Society of Survivors of the Riga Ghetto the authors have produced an in depth study of the Riga ghetto that never loses sight of the Latvian capital's place within the overall design of Nazi policy and the all of Europe dimension of the Holocaust
