Commercial Management David Lowe, 2013-08-05 Commercial Management theory and practice defines the role of commercial management within project oriented organisations providing a framework for and helping to develop a critical understanding of the factors that influence commercial management practice It also identifies generic aspects of this practice and provides a theoretical foundation to these activities by reference to existing and emergent theories and concepts as well as to relevant management best practice The book is structured into four parts Part 1 Introduction Commercial Management in Project Environments explores the nature of commercial practice within project oriented organisations at the buyer seller interface It presents a Commercial Management framework which illustrates the

multiple interactions and connections between the purchaser's procurement cycle and a supplier's bidding and implementation cycles. Additionally, it outlines the principle activities undertaken by the commercial function, identifies the skills and abilities that support these activities, and reviews the theories and concepts that underpin commercial practice. Finally, it identifies areas of commonality of practice with other functions found within project-oriented organisations, plus sources of potential conflict and misunderstanding.

Part 2: Elements of Commercial Theory and Practice covers commercial leadership, exploring strategy, risk and uncertainty management, financial decision making, and key legal issues.

Part 3: Approaches to Commercial Practice addresses best practice management and commercial and contracting strategies and tactics.

Part 4: Case Studies offers two extended case studies: Football Stadiums (the Millennium Stadium, Cardiff; the Emirates Stadium, Islington; and Wembley Stadium, London) and Heathrow Terminal 5. The book provides a one-stop shop to the many topics that underpin commercial management practice from both a demand buy side and a supply sell side perspective. It will help develop an understanding of the issues influencing commercial management: leadership, strategy, risk, financial, legal, best practice management, and commercial and contracting strategy and tactics.

This book's companion website is at www.wiley.com/go/lowecommercialmanagement and offers invaluable resources for both students and lecturers: PowerPoint slides for lecturers on each chapter; sample exam questions for students to practice; weblinks to key journals and relevant professional bodies.

Fundamentals of Contract and Commercial Management Jane Chittenden, 2014-01-01. This ground-breaking title from the world's leading authority on contemporary contracting best practices, the IACCM International Association for Contract and Commercial Management, delivers a lively and practical complete insight into the contracting process, which is useful in both business and personal life. Contracts are the language of business, and this book gives readers the essentials that can make a difference to any deal, no matter how big or small. Designed for the non-contract business professional, this book takes project managers and other professionals through the basic process and gives them a road map to improved results, increased value, and successful outcomes. In this book, you'll find sensible guidance and approaches to ensure business success. Case studies showing you what can go wrong and what can go right bring theory into the real world. Checklists give confidence and enable you to be certain that you have asked and answered the right questions as you go through any deal. This real-world approach demonstrates the value of effective contracting. This is not dry academic prose. It is compelling and dynamic advice and tools to manage business relationships for both buyers and sellers.

Research Handbook on Contract Design Corrales Compagnucci, Marcelo, Haapio, Helena, Fenwick, Mark, 2022-05-03. Weaving together theoretical, historical, and legal approaches, this book offers a fresh perspective on the modern revival of the concept of allegiance, identifying and contextualising its evolving association with theories of citizenship.
