DOING ETHICS

MORAL REASONING, THEORY, AND CONTEMPORARY ISSUES

The background of the cover is a stylized illustration of a forest scene. A light brown path forks into two directions, leading into a lush green forest. In the center of the path, a white dog with brown patches is sitting, facing away from the viewer. The forest is filled with various shades of green, representing different types of trees and foliage. In the distance, a large, snow-capped mountain rises against a pale blue sky. The overall style is clean and modern, with a focus on nature and contemplation.

belief forming practices In *Winning Votes by Abusing Reason Political Rhetoric and Responsible Belief* Jamie Watson argues that political rhetoric rather than helping us overcome these defects exacerbates them And standard attempts to address this problem such as deliberative democracy and paternalism tend to either exclude citizens from important decisions or give them the illusion of reasoning well perpetuating poor and irresponsible political beliefs This book concludes that rather than attempt more political solutions the most promising approach to forming and preserving responsible political beliefs is to adopt individual principles of epistemic caution The author brings together insights from political philosophy social epistemology behavioral psychology and agnotology to suggest how we might protect our belief forming behavior from the corrosive effects of political rhetoric Recommended for scholars of philosophy rhetoric political science and communications
