Essential Breakthroughs: Conversations about Men, Mothers and Mothering Fionna Joy Green, 2015-11-01 Essential Breakthroughs Conversations About Men Mothers and Mothering thinks from the nexus of gender essentialism and care The authors creatively blend the philosophical and the personal to collectively argue that while gender is essential to our social and theoretical definitions of care it is dangerously co-opted into naturalized discourses which limit particular identities and negate certain forms of care The perspectives curated in Essential Breakthroughs illuminate how care as a respected and productive cultural ethic is neither inherent nor instinctual for any human but is learned and fostered The chapters are informed by feminist queer and trans politics wielding

post structuralist methodologies of unlearning and deconstruction while maintaining the maternal lens as a credible feminist analytical tool and not as a gender essentialist practice
