Contract Law Ewan Mckendrick 10th Edition:

Contract Law Ewan McKendrick, 2020 Celebrated and respected this is the stand alone guide to contract law Written by Ewan McKendrick it uses a unique balance of commentary cases and materials Explaining applying and contextualising it shows students the law at work and helps them to gain a thorough understanding *Contract Law* Jan M. Smits, 2017-06-30 This innovative and accessible text offers a straightforward and clear introduction to the law of contract suitable for use across geographical boundaries It introduces the key principles of contract law by comparing solutions from different jurisdictions and has an innovative design with text boxes colour and graphics making it a highly attractive tool for studying This revised second edition has been updated to reflect the most recent changes in the law including the French reform of the law of obligations and the new UK Consumer Rights Act A whole new chapter on contracts and third parties has also been added *Good Faith in Contract Law* Christina Perry, 2024-10-03 Combining detailed legal analysis with commercial guidance this book examines the law relating to good faith in commercial contracts and the practical procedural and legal issues that arise in respect of this often contentious area Christina Perry evaluates express and implied good faith obligations in common and civil law contracts as well as in commercial employment insurance partnership and agency agreements

Comparative Contract Law, Second Edition Thomas Kadner Graziano, 2019 Promoting a learning by doing approach to comparative contract law and comparative methodology this updated second edition of *Comparative Contract Law* updates the first true student reader on the subject Bringing together extracts from legislation and court practice this textbook lets students experience comparative law in action and presents a unique guide to European and International contract law

International Commercial Agreements William Fox, Ylli Dautaj, 2023-12-05 Precise planning drafting and vigorous negotiation lie at the heart of every international commercial agreement But as the international business community moves toward the third decade of the twenty first century a large amount of the detail of these agreements has migrated to the Internet and has become part of electronic commerce This incomparable one volume work now in its seventh edition begins by discussing and analyzing all the basic components of international contracts regardless of whether the contracting parties are interacting face to face or dealing electronically at some distance from each other The work stands alone among contract drafting guides and has proven its enduring worth Using an established and highly practical format the book offers precise information and analysis of a wide variety of issues and forms of agreement as well as the various forms of international commercial dispute resolution The seventh edition includes new and updated material on a large number of issues and concepts such as new developments and technical progress in electronic commerce the use of concepts of standardization i e the work of the International Organization for Standardization as a contract drafting tool new developments in artificial intelligence in contract drafting the use of cryptocurrencies as a payment device expedited arbitration early neutral evaluation and digital procedures for dispute resolution online dispute resolution including the phenomenon of the robot

arbitrator and foreign direct investment investment law and investor state dispute resolution Each chapter provides numerous references to additional sources including websites journal articles and texts Materials from and citations to appropriate literature and languages other than English are included Recognizing that business executives entering into an international commercial transaction are mainly interested in drafting and negotiating an agreement that satisfies all of the parties and that will be performed as promised this superb guide will measurably assist any lawyer or business executive in planning and implementing contracts and resolving disputes even when that person is not interested in a full blown understanding of the entire landscape of international contracts Business executives who are not lawyers will find that this book gives them the understanding and perspective necessary to work effectively with legal experts **Force Majeure and the Law: Acts of God in Comparative and Historical Perspective** Thomas D. Musgrave, 2025-04-08 This book examines how the Roman French and English legal systems have each dealt with the issue of unforeseen supervening events which have rendered the performance of contractual obligations either impossible or fundamentally different in nature sometimes known as Force Majeure or Acts of God Although the Roman French and English laws of contract have each developed legal rules which address this issue the approach adopted by each system is significantly different from that of the others The thesis of this book is that the response of a legal system to unforeseen supervening events derives primarily from the nature and structure of that legal system as a whole and then within that broader context from the salient characteristics of that system s particular law of contract The work compares the differing nature and structure of the Roman French and English legal systems and their respective laws of contract in order to demonstrate how this is so The book will be a valuable guide for academics and researchers working in the areas of Comparative Law Legal History Legal Theory and Contract Law As the English approach to unforeseen supervening events is very different from that of the French the book will be of benefit both to English and to French practitioners as they seek to understand how supervening events are dealt with across the Channel It will also appeal to law students as a guide for studying comparative law Contract Law Ewan McKendrick, 2023-04-06 The 15th edition of Ewan McKendrick KC s bestselling textbook is the go to resource for all students of contract law It combines a clear and straightforward account of basic doctrines including consideration and illegality with up to date coverage of more recent developments such as the recent Supreme Court and Privy Council decisions dealing with economic duress and the interpretation of exclusion and limitation clauses Other contemporary considerations covered include the application of the doctrine of frustration to contracts which have been impacted by the COVID 19 pandemic and the scope of the doctrines of mistake and misrepresentation Packed with a range of pedagogical features from hot topic discussion boxes to end of chapter summaries and exercises this straightforward and stimulating text is the essential learning companion for students undertaking undergraduate law degrees the GDL CPE modules or other equivalent contract law courses **The British National Bibliography** Arthur James Wells, 2001 Law Books Published , 1998 *Law Books in Print: Subject*
