

## Control of Blood Sugar Levels

What hormones are involved in the homeostasis of blood sugar?

### Why?

All living things use glucose as a source of energy. In vertebrates it is critical that the levels of glucose in the blood are consistent. Small fluctuations are fine, but if the glucose concentration in the blood gets too high, a coma could result. If the glucose concentration in the blood gets too low, the person could experience seizures, go into a coma or die. In humans, hormone levels help regulate the glucose concentration in the blood and keep us in homeostasis.

### Model 1 – Hormonal Control of Glucose

1. The relative blood concentrations of which three molecules are recorded in the graph of Model 1?  
*Glucose, glucagon, and insulin.*
2. Which molecule from Model 1 is found in the blood at the highest concentrations?  
*Glucose.*
3. Why do cells need glucose?  
*Glucose is metabolized and provides the energy cells need to run cellular processes.*
4. According to the graph in Model 1, what happens to blood glucose levels after a meal has been eaten?  
*Blood glucose levels increase.*

**Cracking the AP Biology, 2002-2003 Edition** Kim

Magloire, 2002. The Princeton Review realizes that acing the AP Biology exam is very different from getting straight As in school. The Princeton Review doesn't try to teach students everything there is to know about biology only the techniques they'll need to score higher on the exam. There's a big difference. In *Cracking the AP Biology* TPR will teach test takers how to think like the test makers and eliminate answer choices that look right but are planted to fool test takers. Improve scores by knowing in advance what biology topics are most likely to be tested. Memorize complicated biology concepts using simple techniques. Use the three pass system to get the most out of the test time. Ace the essay section by practicing on TPR's sample essay questions. This book includes 2 full length simulated AP Biology exams. All of The Princeton Review practice test questions are like the ones test takers will see on the actual exam and every solution is fully explained.
