

ASPHALT SUPER LATE MODEL SETUP GUIDE

version 1.1 - Thomas Brandon

When it comes to building setups whether on dirt, asphalt oval or even the road, the process that I use is basically the same. Now, on the dirt side I will always start with my base/qualifying setup and then adjust to the changing track conditions. But, on the asphalt... it's the opposite.

With the asphalt oval cars, I will always focus on building my race setup first. I will do this using the default weather, a 50% track state with the marbles and dust, and then the time of day the race is scheduled. The reason I do this is because I find it much easier to turn my race setup into a qualifying setup on the asphalt side of things.

This guide is designed to help you adjust, and create your own setups by taking you through the exact process I use to build my setups.

When making adjustments always remember to make only one adjustment at a time.

I hope this guide helps you create or adjust your setups so you can get the most out of your car and your driving ability.

THE THREE STEPS TO BUILDING A SETUP

STEP 1: DETERMINED BY TRACK

Bank,1993 The Republic of Korea s industrial policy has directed that nation s economy through nearly three decades of
spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has
come the authors argue for the Korean government to stop managing the economy s structural development and to redefine
the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the
government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc
policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions
would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be
