TO LOWER TOP

- Remember! Come to a *complete* stop.
- Remember! All objects must be out of the top compartment.

Now all you have to do is . . .

1. Disengage folding top locking latch (located at center of header) by pulling latch toward you.
2. Push header free of windshield dowel pins (located at extreme left and right sides of windshield).

3. Rotate top control knob (located left of steering column on the lower part of the instrument panel) clockwise and hold in this position until top is fully lowered.

4. Remove top cover from luggage compartment and fasten in position over top compartment.

CAUTION: Make sure header is completely released before rotating knob. If top is wet, do not keep it folded because the material may mildew.
