Educational Times, 1911 *The Educational Times, and Journal of the College of Preceptors*, 1911 **Principles of Microeconomics** Fred M. Gottheil, 2005. This newly updated edition of a highly regarded text provides your students with the most up to date information available. Cases, tables, data and more were updated to reflect 2003 data. The text also has a four color internal and full supplement package that complements the text's superb conversational style which engages students like none other. *Principles of Microeconomics 4e* represents the results of Fred Gottheil's career as an outstanding professor and author. This edition maintains the proven structure and style of previous editions while updating content to make it even more valuable to professors and students alike. The author continues to use familiar stories, illustrations, scenarios and a direct to student writing style to appeal to students' interests. The narrative is built around questions which cut the distance between the student and the unfamiliar concepts of economics. Instead of covering hundreds of topics superficially, the book presents basic concepts in depth and develops economic analysis step by step. The result: learning economics becomes relative, interactive and appealing versus mere passive course participation.
